BARK CANTON'S CATCH.
 Arrives at St. Michaels from Summer Cruise with 400 Barrels of Sperm.
 A cablegram was received by J. & W. R. Wing yesterday from St. Michaels, stating that the bark Canton of this port, Captain Roza, had arrived there with 400 barrels of sperm oil for the season's work, since leaving St. Helena, June 3d. The oil will be shipped home by the Frederick Roessner.
 The Canton and the schooner Pedro Varela, which arrived at St. Michaels a few days ago with a catch of 450 barrels of sperm oil, are the only arrivals thus far reported at the Azores.

The above clipping was Taken from
 the New Bedford Standard, date of Aug. 27th 1908.
 The ships of forty years ago were changed
 into bark rigs—

A Journal or

A slightly sketch of the most noted
proceedings & Transactions, Events & observations
Remarks & occurrences, Both common & natural
Consequences & Circumstances. H. H. H. H. H.

Which generally arises on a voyage a Whaling
to the Pacific

Oh the mariner!

Throting along on the choppy sea,
When storms are raging & winds are high,
Then from wave to wave we quickly fly

& when all is still on the ocean's breast,
We lay to sleep while the waves do rest
& dream not of perils or dangers past
On the raging sea, amid the stormy blast

& he, far away we are doomed to roam
From all that we love in our distant home
Yet we whisper to every passing wind
A prayer for those we have left behind

& when our perils & dangers are over,
At last we tread on our native shore,
Our grateful thanks shall ascend on high
With life's voyage is over, then happy die

At 8 A.M. On Saturday Oct. 25. 1834 we
 We, hove the Anchors to the bows. & spread the sails

1833 3rd Core Japan

Monday July 2nd Excellent day for whaling all these 24 hours with fine breezes at South one point west, Ship under all sail flying over the blue sea in search of whales But however saw nothing but several pumpkins & porpoises. H. H. So Ends... This day very fine. Lat. by Obs 31.30. Long by A 202.00.30

Tuesday July 3rd Remarks on board ship & on shore this day.. First part fine breeze at South west & pleasant. Latter part something cloudy otherwise fair weather with whole sail breeze H. Ship under her common Cruising sail & flying over the trackless deep. A looking for fish H. Employed variously saw nothing but porpoises. So Ends so fair to day.. Lat. by Obs... 30.22 Long by A 202.30.30

Wednesday July 4th & So passes the days with as good weather as ever trusted out of the heavens & attended with gentle breezes as one would require for our occupation But notwithstanding the days or times appears rather dull & heavy In respect to our whaling as there is nothing seen on this day. So fair So Ends Lat. by Obs 29.19 North..

Thursday July 5th Core. These 24 hours has rolled past with them its pleasant weather H. H. But it appears that fish is shocking scarce as there is been nothing of their nature been seen this day Except porpoises H. So Ends a more fine day Lat. by Obs 29.12 North..

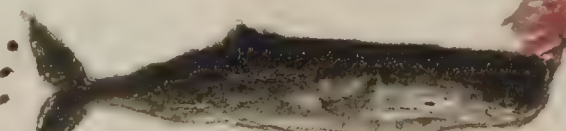

Friday July 6th Light airs & Calms the first part of this day the latter part fresh breezes at W. S. W. with clear & pleasant weather.. H. Ship with necessary sail a flying about the dark blue sea. In hopes as yet.. H. Employed something slightly saw Nothing that is worthy mention So Ends a day quite fine.. Lat. by Obs 29.48 N.

Saturday July 7th It has been a day which we might term a day that is something inactive H. Winds has been very light through the day but pleasant for whaling H. Following the was any whales to be seen Employed rather leisurely in duty to my recollection done except a small job in the line of an Dentist.. Which of course I have remembered... I mean Extraction H. Ends So moderate a day Lat. by Obs 29.30 North.

Sunday July 8th As calm as we have been on this day so fine respecting our Transactions.. H. & with maneuvers that was shocking various, as we saw some pinbacks & pumpkins black fish & porpoises together as we called some were Breaches of sperm whales as some had strong reasons to believe & with various other marks that bore quite out that the was sperm whales not a great distance So Ends... Lat. 29.50 North..

1835.

A. whaling. &c. 1. 20

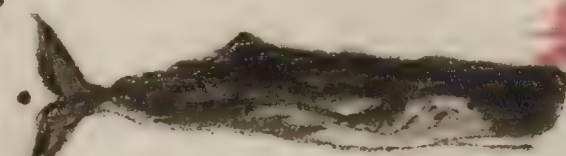

Sunday July 12. Events & Transactions on this day first part light wind & pleasant weather Ship under all sail as coming off At 1 P.M. saw a large whale leaved away and brought him too & took him to the ship & the mutual processing of cutting &c &c. commenced. The Starboard boat received a slight crack, of 3 streaks on the occasion. So ends a pretty fair day. 90th:  Lat. by Obs 29. 28 North.

Monday July 13. Begins with strong breeze from the S.W. Westward and some rain. Engaged in boiling the above whale. &c. &c. Latter part more fine. Saw a break in the ice but could not ascertain what it was. So ends this day. Lat by Obs 29. 08 North.

Tuesday July 14. Events & Transactions all these 24 hours for the most part of this day fine weather & Chock Calm & warm. Employed in common consequences. &c. finished boiling & cleared up. & washed off decks &c. & the like of that. Saw some fampers &c. So ends a moderate day. Lat. by Obs 29. 09 North.

Wednesday July 15. This Day. Begins with light airs & Calm. & fine warm weather. Ship under all sail. Employed in coopersing & stowing down oil. Saw nothing worthy of any note. &c. So ends a day quite fine. Lat 29. 13 North.

Thursday July 16. Commences with fine weather & Chock Calm at 2 P.M. saw a school of sperm whales heard our boats & gave chase to them. It being so very calm & still and the whales blessed with sharp eyes that they made good their escape. At 5 P.M. returned on board. Employed in stowing down. So ends a calm day. Lat. 29. 43 North.

Friday July 17. Fine weather all this day with light winds at E. &c. finished stowing down the above whale & cleared up. & washed off. &c. Latter part of this day saw school of Whales leaved away for them & looked one & took him to ship. So ends this day. 10th:  Lat. 30. 00 North.

Saturday July 18. Begins with very weather with light breezes. &c. Engaged in cutting in the above whale & boiling &c. &c. &c. Latter part something rain, by squalls otherwise fine for our transactions &c. &c. So the day comes. Lat. by 30. 08 North.

44

1835.

On the sea of Japan.

Monday. The first part of this Day, squally with rain. The latter part more fine and steady breezes at South. Engaged in finishing hauling & clearing up & washed off & got ready for fish. But saw nothing but finbacks on this Day.
So Ends a Day. Lat by Obs 30° 28' North

Tuesday July 20. All these 24 hours fine weather & moderate breezes from the Southwest. Ship under all sail, sailing for whales about the Ocean. Occupied quite variously in repairing whale gear. H. H. Nothing in sight but a number of finbacks & porpoises, & the like. So Ends. Lat by Obs 30° 08' N.

Wednesday July 21. Fine & pleasant weather with light breezes at S. W. Saw a ship, suppose her to be a sprouter. Latter part employed in stowing down in main hold H. H. Saw nothing of the Whale species or species H. H. So Ends this Day rather warm, Lat 30° 30' N.

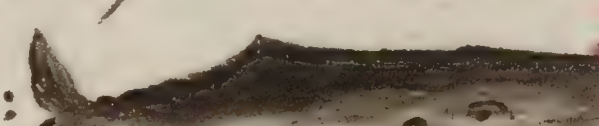

Thursday July 22. Commenced with fine warm weather attended with light breezes at S. West. under all sail a Cruising about H. H. Occupied in stowing down Oil in the main hold. H. H. Saw Nothing worthy of any Note on this fine Day. So Ends a Day. Lat by Obs 29° 58' North.

Friday July 23. Moderate breezes at S West & pleasant weather all these 24 hours. Ship under all sail a sailing for them H. H. Employment this Day has been quite various about the Ship. Saw nothing of Ascertaining except there is one Ship in sight. So Ends a real good warm comfortable Day.
Lat by Obs 30° 18' North.

Saturday July 24. Yes for the most. Part of this Day. It has been attended with heavy Calms & fine warm Weather & smooth Sea H. H. Ship with all Cruising Canvas straightened to the light. Sails H. H. So occupied not very extensive to sea. A number of finbacks & porpoises & the like. But sperm Whales are very scattering it appears. So Ends a Day with one Ship in sight. Lat by Obs 29° 48' North.

Sunday July 25. Pleasant weather. All this Day with fine breezes at S. W. Ship under all Cruising sail a sailing up the ground in search for Whales. Engaged rather triflingly. Saw lots of finbacks & porpoises & the like of them. So Ends a Day quite fine. Lat 30° 17' North.

1835. A Whale. Catching. &c. &c.

Sunday July 26. This day quite strong breezes at S.W. but clear weather. At 4 P.M. saw a large whale leaved for & gave chase to him but lost sight of him in coming dark & so returned on board. At 6 A.M. saw 2 Whales leaved for them & struck & took one to the ship. Commenced cutting &c &c. So Ends 50 lbs.  Lat by Obs 30° 30' North.

Monday July 27. Transactions this day. At strong breezes at S.W. & squally & something choppy &c. Finished cutting & commenced boiling the above whale. Saw not any thing that is worthy of any note on this day. So Ends a Day rather dour. Lat by Obs 30° 40' North.

Tuesday July 28. Transactions & Occurrences on this day. At strong winds at S.W. attended with heavy squalls of rain. & B. however finished boiling the above whale & cleared up & washed off &c &c &c Ship under close sail. Saw nothing at all on this day which I may term without exaggeration rather nothing. So Ends a day rather dourish. Lat 30° 55' North.

Wednesday July 29. Commences with strong breezes at South West attended with heavy squalls of rain. Ship under short sail. At evening overcast in search of fish. Employed on no large scale. Saw nothing but finbacks. On this day So Ends Lat by Obs 30° 12' N. L by Lunar 20° 10' 10" Cr 153° 56' East

4. Cruising.

He

Sunday

Aug. 16.

This very pleasant day has been attended with light winds from the W. S. W. & a smooth sea on the ship. but saw nothing on the coast for whale with all sail. Except a number of finbacks & greyhorses. So ends a day fair. Lat 31.35 N. Long. by obs. 203.00. 30 West. Co. 156. 51. 31 East.

Monday

Aug. 17.

First part of this day very fine & latter part very squally attended with heavy showers of rain & thunder & lightning. wind quite shifting. Ship under sail that is consistent to the weather. Saw a number of finbacks and a sick of Sperm & took it on board. Supposed it to be drifted from the Jaffanec Isles. So ends this day. Lat. 31. 54. 31. N. Long. 202. 54. 31. W.

Tuesday

Aug. 18.

Remarkable pleasant weather for whaling. with light winds from the N. E. & smooth sea on the ship. a Cruising. Saw as usual not any thing of the Nature of Sperm whales. Employed in Ship's duty. So ends a day very pleasant. Lat. 30. 30. North Long. by Obs. 202. 54. 31. W. Co. 157. 00.

Wednesday

Aug. 19.

All these 24 hours fine breezes from the Eastward. Pleasant weather. for Whaling Ship under full sail a Sailing over the waters of Jaffanec. In strong hopes of Employment. But saw nothing but Gumpers & some other small fish. Employed in various jobs of Ship's duty. Got a full on the head. So ends this day. Lat. by Obs. 29. 28. N.

Thursday

Aug. 20.

The first part of this day quite fine weather with moderate breezes. Latter part strong breezes from the Eastward & some rain. Employed in small jobs. About the ship. Saw great numbers of Gumpers but no Sperm Whales. So ends a day with 2 Ships in sight. Lat. 30. 00. N.

Friday

Aug. 21.

Commences with strong winds as above. East by land & some, squally kind of weather. Ship under full sail. Cruising. Latter part more fine. without the main topsail & engaged in repairing it. Saw nothing at all. So ends this day something Squally. Lat. by Obs. 31. 06. North.

Saturday

Aug. 22.

All these 4 & 20 hours remarkable pleasant weather with fine breezes from the Northward & Westward & a smooth sea. & we still continue to live in hopes & consequently we keep the ship a flying over the waters of Jaffanec under all necessary sail. Endeavouring too hunt the sperm. But we come short of it this day. For there is no seen that bears the slightest representation of Sperm Whales. Engaged quite variously. So ends a fine day. Lat. by Obs. 31. 58. N. Co. 158. 21.

1835.

Japan Sea

Sunday
Aug. 23 All this day fine & pleasant weather with decent breeze,
at North West. Ship is sailing about the ocean for
the express purpose of finding some whales H. H. But
1835. saw nothing that is worthy of mention. Except young fin
backs & porpoises H. H. So Ends This Day fair
Left by Obs 31.33 North.

Monday
Aug. 24 First part of this day light winds from the Northward
& Westward with pleasant weather. Latter part A.
chock calm, & something warm but agreeable kind of
weather H. Employed in various jobs about the ship.
unbent the forest & began to heave the masts in & about
the weakest parts, of W. H. H. Saw many finbacks, no
S. Whales. So Ends. Left by Obs 32.15 North.

Tuesday
Aug. 25 The first part of these four & twenty hours chock
calm H. Latter light winds from the westward with
fine warm & pleasant weather H. Ship under sail
that's adequate to the breeze & cruising for fish. H. H.
saw lots of finbacks, & porpoises of. (As we found out to be)
complected. It bore striking evidence that it was from some
part of the China Empire. Employed rather slightly H. &
So Ends very still day. Left by Obs 31.48 North.

Wednesday
Aug. 26 Most part of this day has been pretty fine weather
except at being rather squally squally between with
strong breezes at West. Ship with all reasonable sail spread
& cruising for the finbacks, & porpoises. Looking for employment
But saw no Whales to day. At 10 P.M. spoke the

Thursday
Sept. 30. This day we have a very calm fine & pleasant. Except we had what I may call a Thunder Shower attended with squalls of rain & moderate breezes from the S. E. Ship under easy sail cruising sailing over Jaffan for the Express purpose. finished stowing down & cleared & washed off the decks. H. saw some finbacks. To Ends. Lth. 36.58 North.

Friday
Oct. 1. This first day of Oct. Commences. Remarkable fine weather. attended with gentle breezes from the S. East. Continued too tomorrow. The Ocean under all sail. At 4 P.M. Saw as we supposed a small sperm whales a long distance to the west & consequently we did not give chase as sunset being near. H. To Ends This Day something pleasant Lth. 36.30 North.

Saturday
Oct. 2. Commences with fresh breezes from the Southward & some rough ship under a reasonable crowd of sail & wandering over the sea. H. at 5 P.M. Saw Sperm whales run the ship close aboard of them & Landed 2 boats after sunset. but however we soon struck & but as fortune would have it the line parted & whale went off. It being rather late in the evening to see the whales, consequently we gave up the chase & came on board. Latter part of this day high winds & Sea ship under storm sails move too. To Ends This Day. Lth. by 31.20 North.

Sunday
Oct. 3. This day high winds & Sea ship have too much sail. Latter part more moderate but something squally & heavy rain. Well on no weather for whaling. Saw nothing but 1 ship. In this day. To Ends This Day 31.11 No. Obs. Lth.

1835. In Japan.

Sunday. 4th. This day has been about half misting & hazy weather. I attended with wings rather stiff from the Northward attended with a heavy swell and, rugged sea. He. Saw nothing worthy of remark except 2 Spouters being for sight. I. A. bird of the Curlew kind come on board in order to rest his wings I suppose as well as his feet. He. He. I. E. Ltt by. Ch. 31.00 North.

Monday. 5th. For the most part of this day fresh wind from the N. E. East with something cloudy & drenching time of weather. He. Ship under all reasonable sail on the search for fish. Employed quite vigorously about the Ships Puckle. He. He. He. saw nothing at all to day except 2 Ships on the look out. So. So. Ends This day pumping. Ltt. by Ch. 30.45.

Tuesday. 6th. These 24 hours has been nothing unfavorable weather for it being I. E. high, wind at about S. East. and rugged sea & swell. He. He. Ship under close sail. At. Sailing for them. He. He. He. Employed in Ships duty such as repairing some sails & painting the L. Boat. He. Saw some finbacks whales. He. So. Ends. He. Day quite rugged. Ltt. by Ch. 30.17 North.

Wednesday. 7th. All this 4. & 20 hours, high winds from the S. Westward. Frayed. Attended with thunder squalls & rain. He. He. Ship part of the day under stormy sails. Latter part close sail. He. He. Employed rather slightly. Saw Nothing worthy of mention. On this rugged day. So. Ends This day. Ltt. 31.02 North.

Thursday. 8th. Unfavorable weather All this day for whaling. It being attended with strong & shifting winds with some rain & squally & rugged. He. Ship under rather short sail on the search for whales. Employed in a few notions of Ships duty. He. He. Saw one sperm whales on this day, rather small. Times on this day however rugged day. So. Ends Ltt. 31.00 North.

Friday. 9th. These 24 hours has been attended with high winds from the Northward & Westward accompanied with copious quantities of Rain & rather unfavorable weather for our occupation. He. Short, or moderate force of Wind, best suits the weather on the Ship. This day Saw 1 Ship but no Whales. Employed rather slightly on this day quite rugged. Ltt. 31.10 North.

Saturday. 10th. All this day strong winds at North & rugged & drenching weather. Ship under rather short sail. On. So. He. He. Employed in Breaking out for several Casks of sails & rigging. He. As we have I am rather inclined to believe a slightly notion of bending some new taffers & the like. He. He. Saw not any thing that's worthy of the least Note or remark. So. Ends. Ltt. 30.44 North.

1835.

Transactions.

Sunday

1836

1836. About the Equator H.C. cruising

Monday 24. This day strong breeze at S. by E. & rather rugged for our business H.C. 1836. Ship under full Consistent Canvas, on the Breeze H.C. 1836. presented on Canvas within our view This day. Employed in hauling H.C. & fitting whalebone Pickers. Craft H.C. 1836 So the day ends H.C. 1836. Lat 5° 35' South.

Monday 25. This day wind N. by E & strong breeze, weather fair weather. Ship under full reasonable Sail & Cruising over the Sea, H.C. finished hauling the above whales & took out the Pickers, to show down oil, H.C. So the day ends & no whales were in sight Lat 4° 05' South.

Monday 26. Weather & wind as usual & very unfavorable season so far for whaling. Ship is grumping over the seas under a Canvas Sail in Search. Employed in Stowing down Oil for water & nothing seen in sight This day. So the day ends with 120 more down, This day Lat 6° 34' South.

Monday 27. H.C. This day winds at E. N. E. & strong breeze & sea quite rugged & otherwise decently fair weather H.C. first part. Employed in Stowing oil off the hold with Cook & three boys & trash H.C. Cleared the decks washed off. H.C. Latter part, some trifling jobs & fitting Craft H.C. 1836 Saw Nothing of the whale kind This day. At 7 P.M. the screaming sound on deck was loudly exclaimed, "A man overboard, but however we very soon heard it loud & continued to his assistance & relieved him of his situation. So the day ends Lat by Obs 7° 00' South.

— — Long by Obs of the Sun & Moon nearest Lignets at 4 P.M. 156° 44' 15" West.

Monday 28. Commences its usual with winds at E. N. E. fresh breeze & decently pleasant H.C. Latter part quite moderate & fine Ship in the more of Transactions has consisted in, making some alterations in the Sparker & converting it from the twist to the braces, H.C. Saw Nothing at all So the day ends Lat by Obs 8° 00' South.

Monday 29. This day wind at E. N. E. & Light breeze & fine warm pleasant weather. Ship with all Sail spread to the breeze H.C. Demanding for the Seas, Transactions has not been very extensive This day however some small jobs of Ship's duty has been done. H.C. 1836 Saw nothing that bears the appearance of the whale. So ends Lat by Obs 7° 48' South.

Monday 30. Winds at E. N. E. & moderate breeze weather remarkable pleasant for our Occupation H.C. Continue to drive the Ship about the Ocean & Cruising for fish but nothing of their nature has come within our view This day & they appear to be very reticent about here Transactions has been quite light such as small or trifling consequences & some B. Smoothing H.C. H.C. So the day ends Lat by Obs 8° 03' South.

1836. James. Accompanied With.

Monday Jan 31. Commenced with moderate breeze from N.E. & fine weather with the latter part strong winds & quite rugged H. H. attended with dark heavy clouds. Ship under all Consistent sail & steaming to the west very freely. H. saw nothing as usual. To the day ends.. Lat. N. 33. S. Long 155. 4. S. M.

Tuesday Feb 1st. Throughout this 24 hours strong winds, at N. N. E. with 1836. rugged disagreeable kind of weather for sailing allowing there was any whales to deal with. H. H. But however we continue to cruise over the sea. H. Transactions has been quite limited. Various. This day ends with numerous birds in sight on the wing H. Lat by Obs. 8 59 South.

Wednesday Feb 2nd. Begins with strong N. N. E. winds attended with dark & heavy clouds indicating striking appearances of rainy weather. At 2 P.M. saw Whales. & made the ship for them & made preparations to tow, H. got within about 2 miles of them. As fortune rather proved unfavorable, it came on to rain heavily for 2 hours so consequently lost sight of them. H. Minute part very rainy by squalls. Latter part fine. Employed in ship's duty saw many on the wing & making great havoc among the fish. H. To the day ends Lat by Obs. 5 45 South.

Thursday Feb 3rd. This day, stiff winds at N. E. by N. attended with frequent squalls throughout the day with a rather a rugged sea on for business. H. Ship under all Consistent sail on the course H. Transactions chiefly has been in making a quantity of small gear for gutting H. & D.S. usual. The day ends with no whales sight. Lat by Obs. 7 38 South.

Friday Feb 4th. Most of this day winds N. N. E. strong breeze, H. & fine occasional squalls, on the day H. saw on the coast few fish. Engaged quite moderate for light jobs, about the ship. Saw a track but the weather did not ascertain what it was, or at least knew all that was seen this day. To the day ends Lat by Obs. 6 30 South.

Saturday Feb 5th. This 24 hours weather fine with wind at N. N. E. fresh breeze H. Ship under all sail on the tramp for fish, at 12 M. saw a ship at 4 P.M. spoke her, the Prudence of Hagerstown 1400. lbs 29 months. Latter part employed in turning in the M.L. Riggings H. To ends saw nothing Lat by Obs. 5 10 South.

Sunday Feb 6th. Winds at N. N. E. & an fine whaled. H. weather sharp & sea smooth. H. Transactions has consisted in putting the M.L. Riggings down & various other jobs about the ship of no great magnitude. Saw a number of porpoises, but not over the glimpse of the S. Whale. This ends, Perry 155. 13, West. Lat by Obs. 4, 30 South.

Inactive Transactions, in These Seas, 1836.

Monday July 7. Pleasant weather all this day, winds N.N.E. fresh breezes &c...
 Ship still a. traversing the deep, under all sail for the purpose of whaling.
 However nothing that bears application has been in view this day.
 & thus ends the days without much encouragement &c.

4480 15307 W. Lt. 44.5 South.
 Tuesday July 8. Decent fine weather all this day with fresh breeze N.E.
 & ship under her usual. Canvasing sail, a. flying over the ground
 in some hopes, as yet, Transactions has, consisted in running out
 the Main Rigging &c. So ends & nothing has, in sight
 that worthy of an insertion Lt. 44.5 South. Long. 152.40 West.

Wednesday July 9. Fine day quite fair & pleasant with some S.W. & E.
 Employed on the Main Rigging at 4 P.M. Saw as we suppose
 a school of Whales a long distance to the windward but however
 loosed our boats to give chase, but all to no effect, as they were
 not seen from the boats & its coming on dark we returned on board
 Middle & latter part stormy winds with something squally & Rugged
 Saw porpoises hooked on two one but that was of
 no effect, as the iron drew & the fish sunk, thus, ends,
 Lt. 44.5 South. Long. 152.40 West.

Thursday July 10. All these 24 hours strong wind N.E. & N. & rugged &
 attended with large masses of heavy black clouds & showing unfavourable
 weather for our occupation. Employed very trifling.
 Saw as usual nothing thus ends Lt. 44.5 South.

Friday July 11. Winds at N.E. & strong breeze & rugged throughout the day &
 very unfavourable weather for the Whaling Trade, & ship under double
 reefed sails & jumping over the seas. Transactions has consisted
 mostly this day in putting the Main Rigging together with some slight
 jobs a round about the ship. Saw a small number of porpoises
 but nothing larger thus ends, Lt. 44.5 South.
 Long. 151.48.30 West.

Saturday July 12. The weather & winds appears to be rather more calm & tranquil
 on this day, but quite fresh breeze from the N.E. throughout
 the day but passable whaling weather allowing the whale boats
 to get upon &c. Consequently Pines are very full, as fish
 are showing scarce about here as there is not the least sign of
 the whale come within our view this day. Chief Transactions has
 been to day was putting the Carboard Main Rigging this ends, Lt. 44.5 South.

Sunday July 13. Remarks & Transactions All this day the winds at N.E.
 by E. fresh breeze & weather quite fair Ship on the Trawl
 Various has been the proceedings this day &c.
 Nothing of the whale has been in sight &c. So this day ends
 But saw a good something quite remarkable Lt. 44.5 South.
 Long. 150.40 West.
 for these seas

Monday July 21. Weather warm & pleasant breezes mostly light & from the Eastward with light squalls occasionally throughout the day. Ship with all sail spread, standing to Southward for some good weather. I hope to see the N. of Oahu bearing S. by E. Distance 50 miles & 2 other adjacent Isles. It but nothing of which has been in sight. & the Day Ends. Lat 16° 45' South. Long - 155° 36' West.

Monday July 22. Begins with moderate breezes at East & pleasant. Ship under sail standing in for the land. At 4 P.M. Packed Ship & stood to the N. & West in the course for whaler, but saw no signs of any. Middle & Latter part quite calm & breezes & squalls & raining. Completed in Ship's Duty. Thus Ends with Pothuora, etc. Lat 17° 10' South. Long 150° 15' West.

Tuesday July 23. All this day strong wind at N by E. Bordered with rough squally rainy weather very unfavorable day for our occupation. For the most part of the day ship with no more sail than double reefed Topsails & fore sail. At 9 A.M. saw 3 small boats in chase but of no effect as the whaler was not seen from the boat. Suppose them bound to the windward likely as it being quite rough they soon cleared from our view. So Ends a rough day. Lat 17° 41' South. Long 149° 15' West.

Wednesday July 24. This 24 hours has been tempest with a heavy Gale of wind from the Northward & Eastward & very squally & with copious quantities of rain. At midnight no weather for observing if any was seen. Ship under close sail. & put the day with. To 8 Mizen Topsail in. So Ends a storming day. Lat 17° 03' South. Long 148° 00' West.

Thursday July 25. Heavy winds & heavy squalls attended with much rain & a rough short sea on. Throughout the day ship under short sail & jockeying over the ground. Endeavored to find some whales, but saw none as usual. Transactions nothing but working ship & looking out for whale. So Ends. Lat 17° 04' South. Long 147° 00' West.

Friday July 26. This day the weather appears rather more tranquil & more serene but notwithstanding the day has been attended with strong breezes at N. E. & some squalls of rain. Ship with all reasonable sail on the search for whale. Transactions has been trifling. No whales seen. So the day ends with the 3 above mentioned Islands in sight. Lat. & Long of the Islands.

Saturday July 27. Winds from the N.E. fresh breeze, weather pleasant. Sea smooth. Ship under on the hunt. At 3 P.M. saw a Lark & stood for it but saw nothing more of it so bore full again. Engaged in Ship's Duty. So Ends. Pt. Venus Oahu bearing S. distant 15 miles & Pothuora the Isle of Vines under our lee distant 25 to 30 miles.

1836, Arrived to. Tahiti

Tuesday Feb 28 All these 24 hours, fresh breeze At N.E. & pleasant. Excepting an occasional Squall or so on the Day. Ship under all course, Cruising said it traversing around the Islands In search of Whales. Nothing as usual has appeared within view on this far so far. & So the Day Ends At 11 1/2 South. with the Sun in view throughout the Day.

Wednesday March 1st 1836. Fresh breeze All this Day & pleasant. Excepting something. Ship with few Cannon Sail & Cruising At 4 P.M. spoke the Ship Lancaster of N. Bedford & boarded her. He. On Day In various parts of Ship duty saw nothing to end with Tahiti is quite distant.

Thursday March 2nd Commence with fresh breeze from the N.E. Ship under all sail standing off the land. At 1 P.M. the Hooked Ship. & after 10. & made preparations to bring the Ship to anchor into the harbor of Papeete Tahiti & At 4. took the pilot & sailed in & let go the anchor in 2 fathoms of water & lay there for the night. At 5 P.M. weighed the anchor & moved up further up & to a more convenient situation & let go the anchor. He... & commenced the various Duties which naturally arise in port. Islands

Saturday March 4th All these 24 hours remarkable fine weather. Ship at Anchor. Transactions on various works such as taking some Casks on Shore for water & setting up. Shocks. Docking Ship's Vices. He He... At 6 A.M. started in, towing the Brig. Madras. of Boston out the harbor toward home. & the Day Ends here He.

Sunday March 5th Fine & pleasant as usual. Throughout the day, the Chief transactions has Consisted in setting up. Shocks & breaking up for empty Cask. for water. & with some other light jobs about the Ship. Thus Ends this Day with one Watch on Shore to their Liberty & viewing the scenes of beauty & the sweet scenes of life. He He He He He.

Monday March 6th Weather as usual very pleasant & good warm comfortable. weather throughout the Day winds quite light & Ship... Engagements has Consisted in. Taking a raft of 7 Casks on Shore & Docking Ship's Vices & painting some, about in Spats. He He. First one Watch on Shore Amusing themselves with the pleasing scenes of the Islen. But not say anything in relation to the young Ladies & thus the Day Ends. At 1 P.M. Papeete Bay. S. S. S.

1836 Society Islands. &c

Monday. Weather fine & pleasant. Breeze light & slightly in favor to
 South. At anchor from 1. to 3 P.M. had a fine shower of rain. H. H. H.
 With most of the Crew of the Ship on Shore on Liberty to go to
 the Church. H. H. & the day Ends pleasant

Monday
 March 8. Pleasant weather throughout the day, with moderate trade winds the first
 part of the day light air & Calm the latter part with quite warm
 weather. H. H. All hands employed in taking water on board &
 throwing it away, & Planking Ships board H. H. So the Crew
 at Anchor at anchor...

Monday
 March 8. Usually pleasant All these 24 hours & Comfortably warm H. H.
 Transactions has consisted in taking water on board & some other light jobs
 which generally arises on Ship board in port. Whilst one anchor on
 Shore to their liberty. At 11 A.M. Ship Mtd. took her anchor
 & cleared on a Cruise, And thus the day Ends, too Anchor

Monday
 March 9. This day usually pleasant Breeze with moderate breezes from the N.E.
 At 2 P.M. arrived the Ship. Daniel Webster of S. Harbor.
 & came to anchor in the harbor of Poonoon. At 4 P.M. took
 her down to becalm, & engaged in taking on board water &
 wood & throwing it away with one match at their liberty
 on Shore, & Planking with H. H. So Ends too Anchor

Monday
 March 10. Weather on this day usually fine throughout the day with
 light breezes mostly from the Northward & Eastward.
 The water employed in taking on board more & water
 & throwing it away & Planking Ships board H. H. H. H.
 whilst the water being on to their liberty on Shore. H. H.
 & thus the day Ends pretty fair & too Anchor.

Monday
 March 11. Fine & Pleasant warm & Comfortable, with high air &
 Calm, mostly from the Northward & Eastward. Transactions
 has consisted in taking on board a small raft of water &
 wood, together with some blacksmithing Litch to plating
 one match being on Shore too their liberty. H. H.
 This day Ends too & too too Anchor at Bebebe

Monday
 March 12. Weather as usual very pleasant & fine & warm H. H.
 throughout the day H. H. At 4 P.M. arrived here the Ship
 Halcyon of New London. In Distress very leaky & some
 other bad consequences H. H. & with no Oil on board, understood they
 sold out the Oil they had then At 10 A.M. arrived Ship
 Francis of Beaufort & came to Anchor at 2 P.M. & took
 out, & took Board of N. Bedford Bancher here with 14 O. H. with
 16 1/2 Month out, bound to the Isle of Enes, to receive H. H. Trans-
 actions this day on Ship board, copy to L. Sundays coming together.
 so consequently the Crew was very much on Shore. So Ends...

536.

Monday March 20 All these 24 hours fine weather & fine breezes mostly at the N. & Eastward. All hands Engaged on jobs of various kinds. Sailed for taking on board a small raft of Crocodiles & a lot of oranges & Lemons &c. together with some blacksmithing &c. &c. So the Day Ends. To fair to Anchor.

Tuesday March 21 Weather somewhat fine Borneed with light winds & light breeze. Transactions has been rather moderate but however took a small raft of Cask on Shore & filled them. & took it on board & stored it away &c. Whilst the others were lying on Liberty & thus the day ends quite fine. To fair to Anchor.

Wednesday March 22 This day very pleasant As usual & fine breeze. &c. &c. &c. The watch Employed quite moderately in taking off a lot of potatoes, sugar &c. &c. whilst the others were lying on Liberty. We were the sweet Cakes of Life &c. &c. At 11 A.M. Ship Arrived at Sagharan with 1400 lbs. Also Ship Baskin of London with 800 lbs 28 men. So the Day Ends. To fair to Anchor.

Thursday March 23 All this day pleasant weather borneed with gentle breezes from the N. & East. The first part of this day All hands Engaged in clearing the Concerns on Shore & making preparations to take the Anchor &c. Letter. At 5 P.M. very light. At 6 Took the pilot & Anchor Made sail & left the Land of love, with a gentle breeze. At 11 the pilot & Capt. went on. There &c. &c. & Ship Lancaster after a similar maneuver left the harbor &c. &c. So the Day Ends.

Friday March 24 Commences fine as usual, with light airs & Calms &c. &c. Ship under All Sail. Lying off & on With Capt. & boats crew on Shore & settling all the Concerns, &c. &c. &c. &c. &c. So this Day Ends with Ship Lancaster in Company.

Saturday March 25 Weather fine as usual breezes light and from the N. & East. Employed in Stowing the Anchor & Chains &c. &c. P.M. Boat came on board & store of there to the N. & Westward in Company Ship Lancaster At 5 P.M. Steered Southwest for Sanders Is. At 10 Saw the Island bearing S. by West Dist. 45 mls. So Ends.

Sunday March 26 These 24 hours begins with fresh breezes & pleasant rather the boat landed on S. Island for the purpose of obtaining some grains but returned unsuccessful. & Made all sail by the wind to the North. At Sunset the Is. of Kenuana Bore N. N. W. by Com. Dist 40 miles At 11 A.M. Kenuana Bore S. E. Dist 6 miles &c. So this Day Ends in Company with Ship Lancaster.

1836 On the Hunt.

Sunday May 1. This day has been tended with strong or fresh Easterly winds & rather thick hazy kind of weather for too long. 1836. Under ship a sweating at it under a reasonable press of sail. But O, came within view of the whole kind.

Monday May 2. 45° D Long 166. 45. Lat. by Obs 45 miles South. Brisk breeze & from the Eastward with pleasant weather. Ship under full sail a wandering over the sea in search of whales. At 11 A.M. saw a sperm whale run for them & Loosed 2 boats but they were not seen from the boat, nor the ship again so consequently the boats returned on board. A. Supposing the fish to be gone to the immemore very lively... So this day Ends In Company Lat. by Obs 1. 10 South.

Tuesday May 3. Brisk breeze & rather rugged throughout the day. Ship under a press of sail. Standing off to the westward in search of the whales. Nothing been in sight. This day. 1. 10 South. Engaged slightly. unshiped the Blacksmith forge & 46 So the day Ends In Company Lat. by Obs 1. 20 South. Long 166. 33. 30 West.

Wednesday May 4. Brisk breeze & something choppy sea on 46. Standing to the westward. Searching for fine whales but being deceived as there has been no signs this day of any whales. Company quite under sail on ship's deck. So the day Ends In Company Ship Lancaster Lat. by Obs 1. 42 Lat. by Obs 47 miles South.

Thursday May 5. Brisk breeze & pleasant weather. Ship under full sail steering off to the S & west. In the expectations of finding the whales but all as were to no effect. As there is nothing been in sight except a solitary finback. Transactions has been quite light on ship's deck. So this day Ends Lat. 1. 28 South. In Company Lat. 41 Lancaster

Friday May 6. First part of Phase 24 fresh breeze. Ship under full sail. Reasonable sea. A. 2 P.M. saw a hump. Did not ascertain what it was being some distance to the windward. Middle of latter part light winds & very pleasant. Saw nothing more. Company arrived about 11. Ship. So this day Ends In Co. Lat. by Obs 1. 48 South. Long = 174. 10 West.

Saturday May 7. Very fine & pleasant with gentle breeze throughout the day. Ship cruising as yet but nothing has been within view that worthy of mention. Employed In Coopers & quantity of bread in pipes between decks &c. &c. on So this fair day In Company Ship Lat. by Obs = 1. 15 South. Long by Obs = 172. 30 West.

Scenes of the Most Striking Events, &c. &c. &c.

Monday Pleasant & very fine Throughout the Day Attended with light
 May 8. N.E. Trades winds & smooth sea &c. &c. Continue to. Commence
 under full sail over a Ocean in strong hopes of coming in sight
 of the fish soon. As there were many purposes & some business
 to sight. On this day - So. does. This day End In. Co. Ship L. -
 Lat. by Obs. 45 Miles South Long by Obs. 113. W. 15. West.

Monday May 9. All this day brisk Trades & quite rough &c. There has not
 any thing been ^{seen} that is worthy of mention. Ship under a press of
 sail standing the N. E. Westward. &c. Employed Ship Duty
 sent down the Cutting Yacht & fitted on a cutting pendant.
 So Ends. In. Co. Ship L. - Lat. by Obs. 46 miles North.
 Long - 114. 35. 35 West

Monday May 10. Commence with brisk Trades & rather rough. Steering S. S. W.
 At 1 P.M. A school of whales broke water over board
 the ship. &c. we loosed all the boats but all to no effect
 As the whales was badly frightened at the sight of the ship
 & the made their way to the windward beyond our speed &c.
 Consequently the boats returned on board. Latter part more
 fine with light Trades &c. &c. At 9 P.M. Saw a
 Large lone whale. Loosed all the boats in chase to windward
 So this day Ends with the whale down boats Laying by
 for him to rise. Lat. In. Co. Lat. by Obs. 48. 48. 48
 Long. 114. 48. 48

Monday May 11. All this day brisk Trades & something thick & hazy &c. &c.
 At about 2 P.M. with some occasional squalls one boat
 got fast - but shortly after made fast & consequently
 the whale was off. Boat came on board. &c. &c. &c. &c.
 So must this day Ends. In. Co. Ship L. - Lat. 3. 00 N.
 Chasing. Lat. - Long. 113. 48. 48

Monday May 12. Began with fresh breeze from the Eastward. In some
 Chopping &c. Ship standing under a press of sail to the
 Northward. Saw nothing on this day worthy of mention
 water is so transacting nothing more than common. This day
 So this day Ends. In. Co. Ship L. - Lat. 5. 02. N
 Long. 113. 47

Monday May 13. Began with a fair breeze from the Eastward. In some
 very pleasant weather. Smooth sea on the 30 Ship. with
 all sails set. Steering S. W. may be weather for purpose
 while S. latter part shifts breeze with squalls of rain &c.
 Pursuants Light. Saw nothing but porpoises. So Ends
 In. Co. Ship Lancaster Nov. Obs. Lat. 113. 01 W

Whites

Generally Brises

Sunday May 15. This Day Begins with fresh winds from the Southward & Cloudy. Steering course N. W. West under full sail Middle part light winds & Ship by attended with Cupious quantities of rain. Latter part fine weather with steady breeze at S. by West. Saw the usual nothing worthy of note. So This Day Ends, The Lat. 10. 12. In Light, Lat. 10. 32. North.

Monday May 16. First part of This 24 hours fine weather with light Easterly breeze. Ship Steering N. W. Course and full sail Middle part much rain. Latter part fine & Cloudy and light breeze at South. At 10. M. T. Saw a ship to the Westward but no big fish. Ship's duty is the Instructions, on board. So Ends In Come. Lat. 10. 44 North.

Tuesday May 17. All This day light & bright. Air & Calm & more fine warm. H. Ship under full sail belongs, & listening towards the Sea of Japan. At 4. P. M. Spoke the above mentioned Ship the Enterprise of N. Bedford. Cpt. Went on board of her some few minutes. H. Employed rather slightly on Ship board. Saw nothing larger than porpoises. & Thus This Day Ends so Calm with 2 Ships in Light. Lat. 10. 50. North, Long

Wednesday May 18. This Day has been tormented with light baffling breezes & quite Ship by with squalls of rain. H. H. Ship working to the N. West very gently. Saw many blackish & porpoises but Nothing larger. Employed rather slightly. So The Day Ends with 2 Ships in Light. Lat 10. 00. N. Lon 175. 16

Thursday May 19. Begins with fresh breezes at about 7. 30. & Cloudy with rain Steering off North West Course. Middle light. Air mostly Southward & Eastward & much rain. Latter part nearly calm. At 4. P. M. The Cpts of the Ships' Cox. & L. Come on board, some half even minutes. H. H. the watch Engaged in Ship's duty. Saw a number of porpoises & grasshoppers. & The Day Ends pleasantly. Lat 10. 48 North, Long

Friday May 20. This day Begins fine & pleasant & winds S. E. gentle breeze. Ship under full sail Steering Course N. W. Middle part much light & Ship by. Latter part both winds & weather fine. The Main Employed in the duty of the Ship. H. & H. nothing or mark of a Whale has been caught. This Day, H. & Thus Ends The Day. Lat. 12. 06 North = Long

Saturday May 21. All These 24 hours fine breeze from the N. E. & Steering N. W. Course with all speed. H. the ship on the affairs of the Ship. No appearances of the whale kind has been in view. So The Day Ends with 2 Ships in Light. Lat 13. 23 North

1836. Penn. with Speed to the

May 22. All the fine Boxes from the Northward & Eastward
 & quite pleasant weather. Ho, Steering Course N.W. & back
 with full sail spread. Saw nothing but nothing mention
 otherwise than many fishy water - small fish around the
 ship. So ends this day pleasant. Lat 15.30 North
 with 2 ships in sight. Long 176. 49. 15 West.

May 23. Pleasant weather & fine trade winds throughout the day
 Ship under full sail. Steering N.W. by N. Course.
 Transactions has consisted in light jobs of Ship's Duty & in
 looking something engaged in making a red Case for journal
 the So ends this day. Am I ship in com. but no fish
 latitude by 16. 17. 30 North Long by 177. 30. 45 West.

May 24. All Ship 24 hours, fresh Trades & pleasant. Excepting an evening
 of small rain a few throughout the day. Ship under full sail
 bearing to the N.W. for Japan sea. The transactions has been light
 in the extreme. Excepting the Captain being very moderately engaged
 in the large book. Saw the usual Nothing & So ends.
 with 2 ships in sight. Lat 19. 12 North Long 179. 52

May 25. Very day strong N.E. Trades & rough Ship under full
 sail, but double reefed Topsails. Steering N.W. by East Course
 against the Main & the. Top. Gullboats owing to their
 increasing on beating a vent. Two. & sent a fine new Main
 to 4 sail. & we, every way along were judiciously. H. H. H.
 & H. H. to H. some light breeze. I'll hold back water upon
 the sail. However we made short very lively & toward our boat
 in chase, in, Co, with the other 2 ships boats. & after making
 a number of moves & cutting some shins we hooked on to a
 fish near to the ship.  So the day ends rough Lat 19. 12

May 26. Continued with strong Trades & rough first part but the storm
 much more fine. Later strong breeze ship under full sail
 sail standing to N.W. Cambridge & cutting to ends
 in Co. Lat 20. 29 North Long 175. 50

May 27. Very N.E. winds & greatly rainy rough weather. Ship
 bearing to the N.W. for Japan. Steering 96. 46 46 46 46
 to ends. Can't write owing to bad light in my room.
 Lat 23. 24 North Long 175. 50

May 28. Pleasant weather strong Northward winds & quite rough &
 something. Cold rain of weather. Steering to the N.W. with
 with a heavy sail. The watch engaged in Ship's Duty
 should be more fine. Rather good fine & pleasant with
 something. Saw a number of fish in water & a
 & some the day. So ends. In com. Ship. Lat 25. 11 North Long 174. 07

1836

Sea of Japan--

Monday May 22. This day begins with fresh winds at N N E, & something of a rough sea on N. Ship steering course S. W. by N. under broad of sail. Middle part wind, increasing. For Feb. 9. such breeze the 3. 1/2. Sailed more fine made all sail & persons or provisions on board. So. Ends the day in calm. Lat 26. 13. N. Long 138. 1.

Monday May 30. Commences with light winds from the Eastward & pleasant standing to the S. W. Middle part mostly calm. Latter light S. W. & variable. Saw a number of finches & purposes employed in mending M. S. G. Sail. So. Ends fine in Company Ship L. Lat 27. 00. N. Long 137. 34. E

Monday May 31. Begins with light winds at West & pleasant. Ship working to the N. E. & West under full sail. Middle part much the same. Latter part strong Northwesterly wind & clouds thick & very rough weather. Shortened sail according employed in reefing the corners in the B. room & redressed the 3 watches again. So. Ends morning. Lat 27. 27. N. Long 137. 31. E

Monday June 1. All this day strong winds from the Northward & Eastward & cloudy & very rough weather. Ship in full sail under main & fore & mizzen of sail. Saw a number of finches, but being judiciously engaged. I called them juncos, but H. H. employed in mending M. S. Sail. So. This day ends rough. Lat 28. 47. N. Long 137. 36. E

Monday June 2. Commences with strong easterly winds & very cloudy & very bad weather for sailing. Ship under all the sail she will bear. Working about N. E. & S. W. fresh winds at N. E. & Cloudy at 6 P. M. the Lancaster more down, and the Capt. came on board. After stopping some time I saw a large boat more or less. He took a kind of air, fair up or down. Due up well. But she looking to make a large to large a visit, over the parting there. He, believing it would be the old ship. So consequently I shall make no attempt although I was on the extreme. H. H. employed in mending M. S. sail. Saw a whole school of porpoises. Did not ascertain what it was. So. The day ends. Steering to the westward, B. Ship Lancaster out of sight. Standing to Eastward. Lat 29. 19. North 167. 03

Monday June 3. Fine weather. S. E. Ship on the cruise. Some nothing employed in mending sail. So. Ends. Lat 29. 35. N. Long 168. 40. E

Monday June 4. Pleasant for sailing all day. S. E. fine S. W. winds. H. H. saw porpoises & caudal finches but no whales. So. Ends. For main sail, & spunk. So. Ends. Lat 30. 15. North

Monday
June 6. To the City Creek Sound Lt 34. 1 Hr. 10 Min. Long. 14. 20 Min. 10 Sec. 167.30 E
Begins with fog. Northeasterly winds & decent fair weather. Bright & better part. Clouds rain thick weather with light breeze & shifting. Saw nothing of the 2 or 3 seals which killed but a number of gulls & mactegnae seen here in the H. Observed the water to be very full & what we have seen but a light eye, H. H. In this day Creek Rain. N. N. (18)

July 1. All these 24 hours cloudy rainy much rain weather & cold
Winds from N. West to North East & on shore breeze. Ship in
the Branch. At 11 A.M. saw the remains of a whale after
the back is taken off, & 3 large cork rebels, & other things
as usual. But no fish of any kind, five ones, water as usual
very hot but not so hot as other stuff, suppose it to be a sign
of good whale ground, & but S. East breeze, so & was
rather more pleasant. Lat. 30, 31, North L 123, 10 West

Monday
June 8. This day has been tended with fresh S. Warbler sounds &
many small birds the most abundant. It which causes great trouble
in the ship. Saw some, where I believe a small fishhook
with which I have been the "Traveller" on this shore, written
about it in the "Fish" book, see birds not so numerous, S. Birds

June 9. A fine day moderate wind from the North E. East
to amount to about 10 Lts per hour. Air & Calm, smooth
sea. Nothing of the woods seen as far as view, birds very
few. Water very clear to its usual colour. In the
evening some light rain with a few lightning storms. H, H₂, & so, on
Faintly End S, Lt. 29, 52 North. Long 166.

[illegible]

June 11. First part of this 24 hours took calm & warm
pleasant weather. Saw great numbers of Blackfish
& saw 10 or 12 seen a boat or two to try a bait
etc. so consequently we hauled on for a fish. Good
luck was to the boys but no fish were sunk
Embargo on Saturday July. Latter part light S. W.
breeze. Lat. 30, 15 North, Long 165. 11

1836. Search of Whale.

June 12. Gentle S.W. breeze & pleasant weather for sailing of H. M. S. throughout this day. Ship a wandering over the gulf waters in search of whale. But nothing has been in view except an lonely fin back & the winged fowl of these seas are not so numerous as usual. So goes this day Lat 29, 27 North.

June 13. All these 24 hours gentle breeze from the S.W. & very pleasant for sailing. Ship a wandering over the gulf waters in search of whale. But on fin back we have been in sight & nothing more employed in various jobs of ship's duty. So ends this day. Lat. 30, 00 N. Long. 164 21

June 14. This day has been passed with remarkable pleasant weather. A gentle breeze from the N.E. & ship a wandering over the gulf. The expectations of coming in contact with some fish, but nothing of their kind has been in view. The last at 3 P.M. saw & make the ship's discovery of a shark. He then came on board & consequently a small game took place. So ends Lat. 30, 45 North. 164

June 15. Usually fine & pleasant throughout this day. Breeze moderate from N.E. Ship on the coast of fish. Saw no signs of a whale's fin. But an lonely fin has been in sight. A numerous group has been playing around & I believe a Petrel, & by his superior size he probably was a cock or male, one engaged very lightly. & thus this day ends so fair. Lat. 30, 00 North. 164

June 16. Fine weather over very fine all day & gentle winds at S.E. Saw nothing & did nothing. So the day ends Lat 30, 32 N. 164

June 17. All these 24 hours pleasant weather & fine winds at the S.E. & S.W. Ship on the gulf. He saw many fin backs & the fish in time has not been seen. Employed quite moderate in ship's duty. So ends Lat 31, 46 North. 165

June 18. Commenced very fine & pleasant & gentle & West breeze. Ship a working to the westward, under the expectations of finding fish. Middle & Latter part something cloudy (comparative with what I may term an Indian mid weather meeting for a guide) & ship's winds. He saw nothing worthy of mention. Employed in various jobs. So ends this day. Lat 31, 16 North. Long 165

1836.

Consequential.

Monday The most part of this day has been tender with much rain
June 22. A high rage wind from the S.W. to West, light under
rather short sail. At Evening H. saw nothing as usual
as Whaler appears not every where but this not any to be seen
about here. At 6 P.M. Sunday, Lat. 31° 29' North.

June 20. Pleasant throughout the day with winds about South
but a squalling rain, the day. Employed in returning
let looking camp for whales, &c. but saw none at all.
but a few porpoises, & numerous birds in wing. H. H. H.
So the day ends very fine Lth. About 37, 80 North.

June 24. W. This day fine weather. Breeze light. gentle S. west
 breeze. Saw a Cochin for sale. A Company
 wholly in looking for whales. Saw none. But
 as, appears quite numerous. Birds as usual. & the
 colour of the water is about as usual. So the day end
 Lth. 30.4. N. H. Long by Obs 199. 12. 43. West.
 Lat. 160. 10. East.

June 22. This day begins with decently fair weather with fresh southerly
westerly winds. Middle & latter parts, cloudy foggy
rain. At the latter part in particular very squally and
much rain. Ship & Pumping for the water. Saw nothing
worth of mention. Employed as usual, 10 C mts.
more from Lt. by 05 30.3 50th.

January 23. This day begins with fresh winds from the Southwest - & pleasant ship. on the Cruise of the Middle part nearly to the latter a very strong up from the S. By Capt. H. P. & Co. Korea. the End of the day discovered a school Blackfish, 30 being lost to day a bait lost all to effect. As the fish were Emigrating to the Eastward spec. R. that we quite likely Engage every Purpling & Blue the day. One pleasant. Lt. G. 30.25 North, Long 200. 30. 10.

June 24. Fine weather & fresh S. & westerly breeze. Smooth sea.
No ship was in sight. In search for her. A point
west of Lundy an English vessel was seen. As
the vessel is making a straddle of the whole line, I
was studying Spanish fish. As there was nothing but
junks to be like from the vessel's transactions. Must
be the most good looking for whale. So ends.

June 25. Warmness with quite strong South westerly wind & some
breeze. At night lost Clouds with rain. Latter - Calm
light breeze mainly from the westward. In am heavy squalls
coming from the S. Low several Greenish, R. & Tan. from
the bank side. Both these Em. In. Saturday fore
to the Coast. Lat 4. N. Long 30. 52. 18 W.

1836. On the Sea of Japan;

Monday July 3rd Saw many fish throughout this day. There were light breezes from S.W. by West and S.W. by South, fresh to strong breeze. Several numbers of small fish were around the ship, of which several were taken. These fish were, including to them, are mostly small. To the day ends. Lat. by Obs. 25° 18' N. Long. by Obs. 20° 2' 26" 45" W. by 151° 30' E.

Tuesday July 4th Saw many fish throughout this day. There were light breezes from S.W. by West and S.W. by South, fresh to strong breeze. On Japan

A

Monday July 24. Wind's South E. Easterly & gentle breeze & remarkable for clear
& smooth sea & H. H. Throughout the day. Ship at 10 am
over ground. Many fishbills whales were in sight in
the morning. Took up an anchor suppose it to be from
some of the Japanese boats. Contained nothing being long
sea & this ends this day. Left by 10. 30. 30. 1836.

Tuesday July 25. All this day has been the most beautiful & agreeable
gentle breeze at 10 am for the first time. Middle
morning calm. Latter fine breeze from the Eastward
& comfortably warm. & remarkable smooth sea & H. H.
Saw many fishbills whales, but nothing of the species
Transactions in ship land slightly. To 10. 30. 30. 1836.

Wednesday July 26. Weather very fine & pleasant. Wind's South Easterly &
gentle breeze. Throughout the day. Transactions has chiefly
consisted in the latter line such as running in the 30. 30.
Main Japanese rigging & great numbers of fishbills has
been in sight but nothing more. To 10. 30. 30. 1836.

Thursday July 27. The first & the last of this day, gentle breeze from
the Eastward & fine warm & pleasant. Latter part middle
calm. Employed in jobs about the rigging & H. H. H.
many fishbills, porpoises & manatees has been in view.
Spent whole most even. All glimpse & To 10. 30. 30. 1836.

Friday July 28. Weather this day. Pleasant in the extreme Wind's Southwest
& very favorable for the whaling business. Through the day
Engaged about eight jobs of ships rigging & some suspending &
flattering on the latter H. H. Saw nothing worthy of mention
& this a fine day. Ends 10. 30. 30. 1836.

Saturday July 29. Begins with very weather & gentle Southwesterly breeze
middle fresh breeze. Latter part fresh wind & squally with
rain. some squally H. H. & H. A judicious act of stop
Commenced leaving cover the oil of the last whale H.
Saw nothing but saw a whale. To 10. 30. 30. 1836.

Sunday July 30. This day has been Sunday with wind mostly fresh &
from the S.W. & smooth rain through the day by squalls
& employed in various jobs. Saw many porpoises & manatees
& engaged the decks. H. H. H. A. Some fishbills has been
in sight but no usual. Nothing more. To 10. 30. 30. 1836.

1836. Sperr. Whaletaking Hc -

Monday
August 31 This day has been remarkable for the Copious quantities of rain
has fallen & the shifts winds & squalls attended with lightning & thunder
lightning &c. There was a squall particularly strong & much
but of short duration, but received no damage as the ship was under
short sail. & the weather through the day has been extremely
unfavorable for seeing whales, nevertheless they were numerous
Bris of the young & baylet kind has been very plenty & on the wing. So the day ends must turn Rainy No. 15

Tuesday
August 1. All this 24 hours squally, rainy, disagreeable & windy
kind of weather. Throughout the day consequently saw nothing. But rain showers & squalls. Hc So End
Lat 30° 00' North Long 156° 40'

Wednesday
August 2. First part of the 24 strong S.W. wind & heavy squalls
& rain Hc At 2 P.M. saw whales some distance to the
windward, worked the ship for them & at 4 loosed our
boats, but but the fish was under active movements
consequently the few subsided and speed. At 4 P.M.
came on board & took in sail as usual. Hc Hc
Morning saw a few whales in some whales they
for them but lost sight of them for 2 or 3 hours
owing to their own squalls and rain but near the
the end of the saw them again, worked the ship for
them so the day ends whales about Lat 30° 45'

Thursday
August 3. Strong S.W. wind & heavy & some squally weather
At 2 P.M. loosed the boats for the above whales
& hooked to 1. & after many shines & a deal of maneuver
& a boat slightly there. we took him to the ship
in quick time another hooked to another whale shortly
after. Chances & look down, moved Cut him so ends
Lat 31° 00' North

Friday
August 4. Fresh S.W. wind some rain. Employees are sailing
& whaling, loosed 3 times & forth hooked too & took
him to the ship. So ends for Lat 31° 43' N.
55 lbs

Saturday
August 5. South wind & fresh breeze. Hooked on & cut the above fish
working at the same motion. So the day ends Lat 32° 15' N.

Sunday
August 6. Wind South little Easterly & quite a strong breeze
Transactions consisted in whaling. Cutting gunk, setting
up specks, Hc Hc Hc Saw whales this day so end

Tuesday
Oct. 4.

Winds from the South & East. & gentle breeze & weather remarkable fine & pleasant. Sea smooth & tranquil. H. H. H. in fine weather. Caused by being in position like sailing from. Has been on this day. The chief Transactions has been in bending another forecast & making sperm. & some other small jobs of a shabby nature. Nothing of the nature of S. Whales has been in view. This fine day. So ends a pleasant day. Lat. by Obs. $30^{\circ}15'$ North Long $172^{\circ}15'$ East.

Wednesday
Oct. 5.

All this day. Remarkable pleasant weather with gentle breezes from the Southward & South-east. Various has been the transactions, but the chief was in making a quantity of cutting rope, & sperm. H. H. At 6 A.M. saw a ship some 12 to 15 miles distant. At 11. Drove her the. New York of Poughkeepsie. & our boat went on board. As she apparently was something engaged in the act of manufacturing the blubber of two 80 barrel whales. & she was 4 months out. 500 lbs. So our boat returned. & the day ends with the appearance of strong winds from the N. Lat. by Obs. $31^{\circ}00'$ North.

Thursday
Oct. 6.

The first of this day, the wind coughed out from the S. & West. & blew a fresh breeze or a strong breeze which. Caused us to shorten sail, made fast wings at. 10 P.M. Lighter winds. N. E. with cloudy squalls & threatening kind of weather. Transactions not very extensive on this day. However we sent down the R. L. B. G. yard & fitted the Rigging to it. & sent aloft again. H. H. H. & caught some fish. Saw nothing that's worthy of mention. So this day must end. So, Lat.

Friday
Oct. 7.

All this 24 hours strong winds from, from N. E. too S. West. & quite Rugged sea & small. H. H. H. Transactions has consisted in Ship duty out of a light nature. Saw nothing to attract the least attention. So the day ends. & working to the Eastward. Lat. by Obs. $30^{\circ}37'$

Long 176°

1836. A Working to the Eastward

Monday First part of this 24 hours strong winds & pleasant weather. At 8 A.M. we discovered again at 10 A.M. under our lee some 150 or 200 mile distant. At 8 A.M. saw a school of whales. I gave our boats & opened a manoeuvre upon two of the lower boat with more or less windows made in her by the fluke of a fish. we succeeded in taking two fish to ship. I spoke the above mentioned ship the Phoenix of New Bedford. with 12 or 13. 24 months. So this day fairly ends. Lat. 39.55

Monday 2. Throughout this day very fine with light winds from the Southward. Hooked on & began to cut. & at 5 P.M. finished. & got the works underway. & cutting up the joints. At 6 P.M. I ended the day with Phoenix in sight. & she had taken 1 whale from the same school that ours were from. So the Lat is 37.35 North

Monday 3. This commences with fresh wind & some rain & showers but otherwise pleasant weather. At 1 P.M. there saw a lone whale from the Phoenix. & they threw their boats for him & we followed suit thinking of believing the whale was heading to leeward, as their boat heading off before the wind. But all to no effect, as there was no whale seen from our boat. & there but a mere glimpse more was catch him. At 4, gave up the chase. & Capt. of the Phoenix came on board of the Canton. & so a short game was the consequence. Middle & Latter part weather very mild & fine from the westward. & a light breeze. At 6 P.M. saw Fringe sail under our lee. & she spoke the Phoenix who informed us she was the Captive of London 800 lbs. bound for the S. I. Isles. & so the day must end. Lat. 36.37 North

Tuesday 4. This day wind from the westward & light. & weather fine & pleasant. Employed in finishing & putting on the Hull. At 11 P.M. finished painting. & closed up some work at 11 P.M. & got 2 Casks of water from the Phoenix. & their Chips to repair our stowed boat. & after a short short game the day I believe must end. So, but I saw no sign of fish. Lat. 37.45 North

Wednesday 5. These 24 begins with light Air & Calm. pleasant & warm weather. Transactions chiefly this day has consisted in repairing boat with the assistance of the carpenter of the Phoenix. Coopers. Some Oil. & so the Middle & Latter part of the day has been attended with fresh westerly winds. But saw no big fish. So ends the day after a visit or short game of the Capt. of the Phoenix. Lat. 37.50 North

1836.

Saturday
Oct 22 Commences with high winds & sea from the North.
Ship under close sail standing to the Eastward.
Whirl fast winds more moderate & squally with rain.
Ship under pleasured with wind about N. W.
with a heavy rough breeze that quarters.
Weave all sails & steer N. N. E. course.
Two many porpoises around the ship. Just as
sailed to fish sharp. Consequently sail much
down, & the day ends. Lat 30. 50 North.
Long 162. 30 West

To the Castaway

115

Monday
Oct. 23. Begins with the wind at N. W. & fresh breeze. & cloudy & blowing with some squalls. The ship under all sail. Steering N. N. E. Mid. part winds shifted to the S. W. & very squally with rain attended with an jerking, tumbling, juddering & rattling swell from the northward which to the great annoyance of our sails & rigging. Not to mention the howling of the ship. At 4. Latter part winds from S. W. to S. & alternately clear & cloudy & many squalls & transactions. Went on other M. L. Day sail & repairing S. P. Sailsail. & so the day ends
Lt 30.22 North.

Monday
Oct. 24. The first part of this day pleasant weather with the wind S. W. to S. E. moderate breeze. & from 3. to 4. P. M. nearly calm at 8 wind came ship to the North point west made all sail & steered the course of East to South. Middle fine weather and fresh winds. Latter part winds at N. W. & strong breeze with some few squalls. At 4. Transactions. Cruise in ship's company. Saw nothing of any whales. So ends pleasant Lt 31.15 North
(6.17)

Monday
Oct. 25. Throughout this day the wind has been veering from the S. N. W. to about S. E. & chiefly from S. W. with some or more, accompanied with quite rapid squalls. At 4. The ship under a press of sail. Steered the course of East to S. E. & E. Transactions consisted in repairing & squaring sails. & making & mending in sail according to times & squalls. At 4. not much lookout to the weather to surge for herring fishing. So I believe the day ends in the Lt of 28 is North by
15940

Monday
Oct. 26. All these 24 hours strong winds at about N. West & quite pleasant weather. Observing it is something rough. The steering S. E. course with a heavy swell & sail a shifting the ground very white. Transactions. This day has been rather light however finished repairing the mast boat 4. At 4. So ends Lt by Oct. 25.42 North
Long by Oct. 159.01

Tuesday
Oct. 27. High & strong wind & fog. I think I believe N. East, Trade winds, attended with an ugly cross sea. Ship under a press of sail & steering to the S. S. E. At 3. P. M. saw several large, sharp whale of the water of an Island & was under the ship for some & passed a short distance to the S. E. & chased him to the end
Lt 2.30 North

1836 Toe Anchor in the Port of

Monday Nov. 18. Weather very fine as usual. Throughout the day. The hands employed in repairing & stowing goods. It & made a little of finish of it. Together with some other stowings the between Decks &c &c. & thus the this day ends. To Anchor

Tuesday Nov. 19. Weather & winds on this day has been not so pleasant as usual throughout the day. From 5 till 8 P.M. being shower of rain, and wind calm, the Middle & Latter part winds strong with squalls & some light rain &c &c. Transactions although day has consisted in setting up shacks & stowing off, & restoring about between Decks & clearing the deck of traps & trash washing off, & with a judicious job of wetting the hold in oil. &c. &c. &c. &c. To this day ends with one watch on Shore the Latter half of the day. Ship To Anchor &c

Wednesday Nov. 20. This day high and strong N. E. Trade winds & squally between, &c &c. It being on Sunday the Transactions are merely nothing. Excepting we let go the barbed Anchor, we did nothing. &c. &c. The same time with one watch on Shore to their duties to go to Church & elsewhere about the place of Honolulu, &c. To Anchor. Ship too. With both anchors a head

Thursday Nov. 21. Weather quite pleasant throughout this day, tender with gentle N. E. Trade winds. Transactions on this day has consisted in taking a raft of me in a boat & keeping ship & marking the lines & send a boat & crew to the assistance of the Ship Briton to take her Anchor for a course. &c. together with an overhauling & washing of the spare gear on deck. &c. &c. To Anchor. With one watch on Shore to their Liberty. &c. &c.

Friday Nov. 22. Weather through the day fine & pleasant. The water engaged at washing ship for passing & sent down. Then I saw some of the J. you said & sent to the rigging repairing themselves. together with various other words of ships sailing. At night the Anchors were on Shore to their Liberty. & viewing the Scenes of Honolulu. &c. &c. &c. To the day ends fair. To Anchor

174

Weather pleasant, Light Breeze SE, throughout the day. All hands Employed in works about main-top with the assistance of 2 Carpenters & we got it from the Store, & set it aloft & partly secured it - &c &c & thus ends this day in Amoy at Honolulu

Saturday Nov, 26 The weather as usual, very pleasant & warm. He
 attended with night powder &c...
 The hands employed at loading about the
 Mainmast. Minor of Mainmast rigging &
 their rigging stays belonging thereto. In the
 day & ends of the carpenters ended or finished
 their work on the Deck. A servant on shore
 The Ship. Do Doctor Honolulu

Monday
 2^d. Weather pleasant throughout the day. Wind in the
 fresh Trades. H.C. All hands employed in the
 works about the M. & M. & Main. A regular business
 & main. Royal mail. & setting up the rigging
 Rattling at even. H.C. H.C. H.C. H.C.
 To the day. Ends. All pleasant. H.C.
 To the day. To the day. To the day.

Tuesday
 Nov. 29. Weather quite fine throughout the day with gentle
 breezes. H. H. & D. H. have engaged the sailing ship
 belonging to the Missionaries, which is about 200 tons
 - to, again together with goods about 1000 lbs.
 So ends, to anchor at Cape

1836.

The Southward

Tuesday The first part of these 24 hours strong Breeze & pleasant
at 11. All hands at Ships Duty, fitting whaling tackle, &c. &c.
Muzzle & Latten-pieces, strong winds & Calms alternately
Made & shortened sail, accordingly. So Ends the Day
steering S. S. E. Course, Lat 19.25 North.

Wednesday From 2. to 11. P.M. Calm & I believe in
bad & jarring cross sea, or swell, or is even I imagine
which consequently caused considerable motion in the ship.
& starting & lowering of the sails. At 12 Midnight a
breeze from the East, & on the increase till 3 P.M. from
1. to 3 A.M. In sail to Double Reef fore & main
Sails & foresail, & took the boats up. &c. &c.
So Ends Still very rough & stiff winds.
Steering by the Wind & heading S. S. E. Lat 19.35 N.

Thursday At 11. These 24 strong N.E. Breeze & rough
heavy weather. Ship under Double Reef topsails &
courses steering by the winds to the S. & East.
the Watch Engaged at Ships Duty. At 11. A.M.
Saw sperm whales & we loaded 2 boats in chase
but with effect as the whales were a going to the
windward very lively. & the boats soon gave up the
chase & returned on board. So This Day Ends Rough
Lat by Obs. 16.45 North.

Friday High N.E. Breeze & heavy rough weather throughout
the Day. Ship under all the sail we will bear &
betimes fore & M.S. Topsails in. &c. Steering by the
wind & heading to S.E. by E. So This Day Ends
Lat 14.12 North.

Saturday High N.E. Breeze & heavy rough weather
throughout this Day. Ship under all press of sail
steering by the wind heading S.E. by E.
with engaged variously. So Ends the Day
Lat 12.17 North.

Sunday High N.E. Breeze & heavy weather rough sea &c.
Ship under a heavy press of sail heading S.E. by the
wind. At 4 A.M. Shipd a sea & stove the
bow Boat & in fine the passage so far has been
accompanied with up & disastors of a like nature
such coming away the rail by the main-mast & putting the
tacks & sheets to the sails & the smother fore & main
away together with the other &c. &c. At 11
At 3 A.M. More Ship for the 3rd of
At 5. More ship again & we did not
see the supposed Ice. So This Day Ends
Lat 10.55 North.

1836.

Western off Shure

Monday High Tides & much heavy gusty weather
 Decr. 12. Ship under a heavy press of sail. Steaming by
 the wind heading S. E. by S. Transactions very
 light. So another rugged day ends

Tuesday
 Decr. 13. High Tides as usual & as much to. Ship
 under all necessary sail for the wind. The Chief
 transactions has consisted in repairing the boat which was
 stove a day or two previous. & painting her same
 So the day ends Steaming on a wind to the S. East
 Long 117° 30' North.

Wednesday
 Decr. 14. Winds from the same quarter. But rather more
 tranquil & the sea more smooth than it usually was
 when the ship steaming to the S. E. by the wind
 under a increasing quantity of sail. The watch employed
 in various acts & works about the ship
 At 5. 30. M. Saw a school of small whales. I went
 all the boat in chase & I got just to one but
 shortly he was gone & he was off I saw two boat
 swimming for a fish. but all to effect. & so the fish
 took the hint & made their way to the windward
 I was gone up the chase & returned on board
 So the day ends No Obs.

Thursday
 Decr. 15. Winds this day from N. E. to S. E. & rainy squally
 disagreeable kind of weather. Ship steaming to the S. E.
 by the wind. At 2. M. M. Tacked ship. on E. S. E.
 & saw again S. S. & working to the windward in the
 Easterly. The Watch employed rather trifling
 Saw nothing of whale kind. but many kinds of the
 sea. So the day ends Lt. 5° 30' North.

Friday
 Decr. 16. All these 24 hours fresh E. wind & some
 choppy sea on it. Otherwise pleasant. The watch
 something engaged at various works about the
 ship. Nothing has been seen to cause the least
 attention. Excepting many kinds of the looby species
 So this day ends, steaming to the southward
 Lt. 4° 40' North.

Saturday
 Decr. 17. All this day fresh E. wind & pleasant
 excepting some squally times. Ship under a heavy
 press of sail. Steaming to the Southward for the
 supposed ground for fish. but saw nothing of their
 kind this day. The Watch employed slightly watch
 Saturday fore & M. the fore. H. H. H. H.
 So the day ends Lt. 1° 33' North.

1836. Cruising Ground.

Monday
Decr 18. All these 24 hours fresh Easterly winds & pleasant weather
Ship standing to the southward with all sail by the
wind. Hc. I saw several finback whales & many
porpoises Hc. So the day ends L.H. by the 57 miles
Long I believe is 156.00 West, 2 South.

Monday
Decr 19. This day fresh westerly winds & pleasant or quite fine Hc
for the day. Ship now supposed to be on the ground
for, or where whales went to live, & consequently we
have commenced searching or anything for them Hc. Hc. Hc
under easy sail in, night time. & made a change
in the watches & converted them into 3 watches so
that 6 to 8 men constituted a watch, which is termed
boats crews. Hc. Employed in various works about the ship
such as put out the masts in the masts & back in
the mast, and & prepared her for painting & re-instated
the Smiths finger & fixed the cutting knives, together
with some small jobs about the rigging. Hc. Hc Hc
making spinnaker too by the way.....

So the day ends L.H. 2.00 South.

Tuesday
Decr 20. Winds from the Eastward & a fresh breeze
& weather decent for fishing, throughout the day
Ship on the ground for whale. Hc. Hc. Hc
a number of finback whales has been in view
but nothing more. Engaged in Ships duty & on
bright lookout to the masts heads Hc
So this day ends L.H. 1.10 South.

Wednesday
Decr 21. Winds Easterly & a fresh breeze & weather
pleasant throughout the day. Employed in
Ships duty & Blacksmithing some & get the
mast put out & starboard one in for painting
Nothing worthy of mention has been in sight
a number porpoise & many birds of the sea
So the day ends on the ground
L.H. 3.00 South

1836

Western Whaling

Thursday Dec. 22. Winds at E. S. E. & fresh breeze & weather pleasant. The ship under active way, over the ground in search for whales. & saw not even a sign of fish. Employed in Repairing Main Topsails & smutting H. H. & The Day Ends Lat 1. 50 South Long about 156. 40. West.

Friday Dec. 23. Winds from E. N. E. & fresh breeze, weather good excepting it being some rough for the season. Ship on the tramp. But saw nothing but a number of hawks & porpoise H. H. Transactions has been chiefly in Repairing sails. & Blacksmithing H. H. So Ends the Day Lat 1. 64 South.

Saturday Dec. 24. Winds from the Northward & Eastward & a fresh breeze. & rather rough sea on for good fishing weather. Ship a Sailing & shifting the ground very lively, for whales. But nothing of Sperm whale nature has been in view this Day. Employed in Saturday Transactions & putting back H. H. So Ends. Lat 2. 03 South.

Sunday Dec. 25. This Day of Christmas Day too has been attended with, with fresh winds from the N. E. East. & pleasant although quite an rough sea on throughout the Day. Transactions in Working ship. H. At 11 A. M. Saw a Ship pass to the weather of us some 10 miles H. but no fish. So Ends Lat 1. 00 South.

Monday Dec. 26. Winds from the N. E. E. & fresh breeze & rough sea. H. H. At 6 A. M. saw 11 Whales loosed the boat & got 2 to the ship. & cut them in. So the Day Ends quite rough H. Lat 1. 12 South.

Tuesday Dec. 27. Winds fresh from the N. E. East. & some or considerable rough for whaling throughout the Day. Engaged in clearing away the heads & cutting up the Whales & boiling H. H. H. & saw Nothing. So Ends the Day Lat 1. 15 South.

1836

Journal & about the Equator

Wednesday
Dec. 28. The first part of these 24 hours fresh winds at East
& rather choppy sea on the But the Middle
& latter portion fine & pleasant breezes from the
same & remarkable good weather for our trade.
The day's transactions has consisted in making a finish
of boiling. Repairing sails. &c. &c.
Saw nothing to attract our attention in the least
from the mast-heads. & Thus the day ends
very pleasant Lat. near. 1. 00 South
The Long I.

Thursday
Dec. 29. All these 24 hours fine & pleasant weather as
any whole Tradesman, would wish for. Attended with
a gentle whole sail breeze from the Eastward
through the day. Saw nothing to call our attention
excepting a small number of what are called
Crabs. Transactions on ship board mostly in
repairing sails & drawing. & I believe spinning some
yarns. At any rate the fine day ends so
Lat. from 1. to 2 South.

Friday
Dec. 30. All this 24 hours, fine & very pleasant
attended with a gentle whole sail breeze from the Eastward.
The Chief Transactions has consisted in repairing sails
& bending them. Together with some hands amending
Spongers &c. Whales is undoubtedly very
scarce as we have not seen even a sign, on this
very pleasant day. So ends Lat. 1. 30 South

Saturday
Dec. 31. Weather fine & pleasant, with at E. N. E. & on
fresh breeze throughout the day. Ship under full sail
in search of fish. but finds no employment in that
line on this day. & so consequently we are obliged
to content ourselves in some slight acts or
transactions on ship board such as rectifying the
cannons in the fore hatchway. & unshipping the smith's
forge. together with various other works such as on
Saturday's nature affords

1537

June 1841

Sunday June 1st Wind begins the new year's day with fine & pleasant weather. H.C. & H.C. attended with fine breezes from the Eastward. Ship under her usual cruising sail & tramping over the dark blue sea in search for whales as usual. At 2 P.M. Saw Jarvis Island & ran within 2 miles of it. & were ship stood the sea. Morning or at 7 A.M. the Pilot again & several breeches to the windward of some 10 to 15 miles dist. & did not ascertain what they were. & thus ends the first day of the new year. & I hope are happy & prosperous year, &c. Lat. 26 miles South Long 159° 50 West

Monday June 2nd Wind fresh & from the Eastward & sea some choppy. H.C. throughout the day. Ship as tramping. Saw a few or two at long distance to the westward but nothing more. Employed in mending sails & making spinnaker. H.C. & H.C. So ends this day. Lat 4° 15' 42 South.

Tuesday June 3rd Wind at the N. E. & fresh breeze & pleasant. A warm pleasant from squalls or rains or very high winds, or heavy or thick or cloudy kind of weather. H.C. & H.C. But I have seen better weather to see whales. & am much longer or shorter sea to row in. On in fine to work all parts of the day. Transactions in repairing sails & "singing" as occasion requires. 2 or 3 finback whales has been in sight. & some horse porpoises. So this day ends Lat 2° 14 South. Long 159° 00 west.

Wednesday June 4th Wind E. N. E. & fine breeze & weather pleasant for whaling. But saw no whales but finbacks. The Transactions consisted in repairing sails & making spinnaker. H.C. & H.C. So the day ends. Lat. 3° 15 South. Long 158° 48 West.

Thursday June 5th Wind N. N. E. & fine whole sail breeze. Ship as tramping about the sea for fish. But saw none but finbacks & nothing more. Employed in repairing sails H.C. & H.C. & H.C. So the day ends pleasant. Lat. 4° 22 South. Long. 158° 00 west.

Vicinity of Jarvis Island.

Winds from the N. N. E., & pretty fresh & gentle breezes... & weather quite pleasant throughout the day. Ship Dismaying over the water as usual for fish but saw nothing worthy of mention on this day.

Transactions Consisted in various kinds of Ship's duty. Thus the day ends Lat. 5. 16 South.

The first & Middle part of This day pleasant weather with the winds N. N. E. & fresh breeze. Ship under all necessary sail, on the course as usual. Latter part. Sometimes raining in squalls & wind rather unsteady & shifting S. E. the chief Transactions has consisted in Saturday jobs such as wetting the boat & starting water. &c. &c. & Thus the day ends So Lat. 5. 55 South.

Winds about N. N. E. & the breeze fresh throughout the day & weather pleasant. Excepting it being some times for good fishing. But as usual saw nothing of any fish. &c. But I believe it was 5. A. M. that 2. Cocks of the "Pheasant" kind, which had a singular appearance about them came within view. They were undoubtedly of a different color from those of the Atlantic, as their breasts were entirely more than usual with white feathers which gave them a noble appearance. But that is still more remarkable with them they appeared to be uncommonly active on their wings & very sufficient in particularly with one of their feet. As they were observed to perform numbers of different kinds of steps & sundry other capers, of a frolicsome nature on a single span of a Sea. &c. & the day ends Lat. 6. 30 South.

All these 24 hours fresh breezes from North and point East. & weather clear & warm. But saw some raged in Chaffling. Ship Dismaying off the Eastward quite lively. &c. Saw nothing worthy of mention. Transactions not very extensive on this day. So ends Lat. 6. 54 South.

All these 4 & 20 hours quite fine weather although sometimes raged & winds from the N. N. E. & fresh breeze. Transactions on ship. Saw rather slightly. A large shark of some 25. to 30 feet long, came within view. As to the Whales they apparently are all tamed their horns & are off from these waters as there is no signs of them seen of late. So ends Lat. 7. 17 South.

1837

Western Ground

A

Monday
 Jan. 11. The first & middle parts of this day tolerable
 fine weather, with fresh winds at S. S. E. &
 rather choppy sea on. Latter part winds
 strong from the same attended with cloudy &
 rather heavy weather. H. very bad for whaling
 Promotions rather limited. Saw as usual no
 fish kind I would have said whale kind.
 & Thus the day ends Ltt. S. 11 South

Tuesday
 Jan. 12. Commences with strong winds from the
 S. S. E. & on the increase. S. wind. H. H. C.
 At 4 P. M. Took in fore & Mizzen. Pop. sails
 & put the ship under close sail. Hoisted up the
 tops. H. While S. Latter part winds blew on
 to quite a gale & the sea rather tall. Accompanied
 with copious quantities of rain. No. catches Promotions & no
 boat out from the masts heads. Wind part the
 weather is not consistent for to work at the
 whale. Trade providing there were much stock.
 So the day ends Rain & Rainy. No. Obs.

Wednesday
 Jan. 13. This day commences with high S. S. East winds &
 very squally & rainy weather. Ship under close
 sail. Middle part wind frequently as strong with
 a slight cessation of the rain. H. Latter part
 rather more moderate although high & quite
 strong winds & squally with showers of rain.
 H. At 4 P. M. the S. S. Mizzen. Pop. sails & put
 the ship in a situation for to pump over (or
 partly under) the seas. In search of the whale
 But saw no signs. So ends a very mixed
 day. Ltt. S. Obs. 7. 08 South

Thursday
 Jan. 14. First part of this day strong S. S. East
 winds & heavy mixed weather. Middle part
 about the same. Latter part rather more fine
 & clear although quite an heavy swell on.
 H. Promotions consisted in ships duty & duty.
 Jobs. H. H. Saw as usual nothing. So ends
 Ltt. S. 4. 41 South
 Long 152. 11. 16 west

Friday
 Jan. 15. Ltt. This day the weather pleasant & winds
 from the Eastward. H. were gentle & fine for
 whaling. H. Ship on the Pump.
 But saw nothing. So the day ends
 Ltt. 11. 01 South
 Long 152. 06. 16 West.

1837 Fishing Fl.

Monday All these 24 hours fresh Eastly winds & fine
 sunny weather. Ship put under way short sail for
 express purpose of coopersing the Oil in the main tank
 So at 6 AM, morning the looked on both racks
 & garaged, & took on about deck about 200 &
 began the operation of the hammer & drivers etc.
 believing them more preferable than cold
 setting. Saw 2 finbacks So ends thin. Saw
 Ltt 3.00 South Long. 152. 11 was 1

Tuesday
 17th This day tolerable fine for our occupation, although
 fresh Eastly winds & some squalling. All hands
 giving away all the works of coopersing the oil
 But at about 2.1/2 We gave up the works of
 coopersing, owing to a small lot cow whales that
 came within view, of which consequently our whole
 attention was attracted. The remaining part of the day
 as we gave chase to them with all the boats &
 all the speed that was necessary. We took 2 of them
 to the ship & cut them in & took them out
 & the day ended So. Ltt 3.1/2 South

Wednesday
 18th Wind from the Eastward & fresh breeze & quite rough in our work
 or transactions. Employed at clearing up the decks
 & washing of some H.C. & began the coopersing
 again & stowing H.C. H.C. H.C. H.C. So ends
 Saw no fish. Ltt 3.00 South

Thursday
 19th Fresh Eastly winds & rather rough for our trade
 & transactions. All hands engaged in coopersing &
 stowing H.C. Saw a breach or two some distance
 ahead of the ship & supposed they were whales
 & within water very active & soon disappeared
 H.C. So this day ends Ltt about 3.10 South

Friday
 20th All this 24 hours quite pleasant weather as it were
 excepting a rather a squalling sea on H.C. Attention
 with fresh Eastly winds as usual. Ship under short
 sail. & all hands hard at it a coopersing & stowing
 Saw nothing at all So ends this day
 Ltt 2.47 South Long 153. 30. 40

Saturday
 21st Wind from the Eastward & the breeze fresh
 & quite rough causing some of weather. H.C. H.C.
 Made a finish of the coopersing business & stowed
 off the H.C. but again. H.C. washed off the deck H.C. H.C.
 together with a few Saturday jobs. So ends. Saw no
 whales. Ltt 2.00 South

Western Green.

p

Sunday Jan. 22 Wind from the Eastward & the breeze brisk. & the sea
 short & raged throughout the day. Ship under reasonable
 sail on the tramp for whale. But none has been
 seen on this day nor any kind of a beast of the
 sea... So Ends The Sunday quite raged Lat 34 miles
 South

Monday Jan. 23 Breeze easily winds & raged kind of weather for
 whaling throughout the day. Employed in stowing
 down the Oil of the 4 last whales in the forehold
 & chock off the bulwarks. On made a settee of that
 part of the old ships gut in Saw many porpoises &
 some other beasts of the sea, commonly called gumpies
 & other the day Ends still raged
 Lat by Obs 32. Miles South

Tuesday Jan. 24 All this 24 hours Strong Easterly winds & raged
 sea & finally disagreeable & backing kind of
 weather for the trade of whaling. He.
 Transactions no work Extensive on Ship board
 No sea beasts has been in sight This day
 So the Day Ends Raged Lat 21 1/2 South

Wednesday Jan. 25 Wind is usual Strong & from the Eastward
 & raged sea on. He. throughout This day
 Ship under rather short sail on the tramp
 have not seen even one animal of the sea
 to attract our attention. Transactions has consisted
 in Rattling the M. Rigging & some light jobs
 on various parts of the ships rigging. together with
 a very small act of Carpentering such as repairing
 the hoghouse & other funny articles... He. He. He.
 & So Ends the Day Lat 3.. 32 South
 Long 155 1/2 West

Thursday Jan. 26 Fresh Easterly winds & the air warmer & the
 weather fair for the trade & Transactions consisted
 in works about the Rigging & getting some
 H. L. P. M. Saw Melvins Island bearing
 S. E. Dist 10. to 15. Miles
 But Saw no beasts of the sea. So Ends
 Lat 41 1/2 South Long 155. West

1837 About the Islands. &c

Tuesday
May 27. Winds at E. N.E. & the gentle & the weather pleasant for the boat throughout the day. Employed about the Rigging & trawling some H.C. Saw one great known by the appellation of Diamond fish.... So the day ends So Lat. 5. 28 South...

Wednesday
May 28. All this day fresh winds from the Eastward & some squally otherwise decently fair weather for the trade. Employed in works about the Rigging. H.C. H.C. H.C. At 7 A.M. Saw Hero Island, & stood for it. & Land 2 boats & went on shore to view the scenes of destruction. & the remains of the Ship Independence which was cast away here in Jan^y or Feby^y 1836. Together with an intention to get some wood, but it very difficult landing. Consequently we obtained nothing worthy of mention. & returned on board. So ends Saw no whales - Lat. 5. 40. South Long 155. 55 west

Thursday
May 29. Winds from the Eastward & the breeze fresh & something squally & quite suited for fishing. But saw no fish to try the quality of. sea or weather of in the boats So ends with the above Isle A long distance to windward. Lat 5. 45. South Long 156. 00 west

Friday
May 30. Winds from the Eastward & fresh breeze & the weather pleasant & squally. Alternately throughout the day. The first part of day worked the ship up to the shore. & were on shore with two boats again to procure some wood. And after some hooking & trawling got off 3 boats loads of Draps & trash. &c for fire. & made out to catch 1 Calf & 2 to 4 seals & the day ends. Lat & Long of the site -

Saturday
May 31. All this day fresh Eastly winds & rough weather & very unfavorable for the Trade. Transactions has consisted in works about Rigging snatching some Seals. No other sea beast been seen. Lat 5. 45. 00 South Long 156. 28 west
 x December, 1836

1834

 ship when was away
 but took no time

1837 A Cruising for Spence Fish

Monday July 6. All the day fresh Easterly winds & pleasant weather. Employed in cutting in the 2 beds of S. leaving away the heads & hauling out the whaler S. H. & getting craft & cutting away time. S. H. S. H. S. H. So the day ends & saw bunches in great numbers. Lat. 43° 32' South, Long 16° 10' West

Tuesday July 7. Winds from the Eastward as usual & fresh breeze throughout the day. first part of the day finished peeling & clearing up & washed off S. H. S. H. Latter part works rather slighter. Saw many porpoises & Cuvierfish. But other animals of the sea. So this the day ends at Lat. 43° 54' South

Wednesday July 8. All these 24 hours pleasant weather with quite fresh breeze from the E. N. E. Transactions has consisted in Rattling yoe rigging & a number of other light works about the ship. Not a single animal I believe has been on sight this day. So the day ends Lat. 44° 19' South

Thursday July 9. Winds from the N. E. by E. & fresh breeze & generally fine weather for the time through the day. The Chief Transactions has consisted in repairing Landward boat. or more properly a splicing her together. S. H. S. H. Saw nothing to attract our attention in the line of whaling. So ends Lat. 44° 30' S.

Friday July 10. Weather quite favorable for the time & winds from the N. E. by E. a fresh breeze throughout the day. Ship sailing to the S. & East we search for whales. But nothing has come in sight of whale kind. So the Chief Transactions has been in repairing boat. So this day ends Lat. 44° 54' S.

Saturday July 11. Winds fresh at E. by N. throughout the day. rather unfavorable kind of weather for the time but we continue to anchor. But however it is discouraging in the extreme for to run these waters over & not even hook a fish once a week on an average. I almost believe it is sufficient to make some of us look wide if not more both moral & action. But only so we shall I fear be driven to the awful necessity of visiting the Japanese another trip. S. H. Employed in repairing boat and other Saturday works. S. H. S. H. Saw sperm whales. So ends Lat. 45° 10' South Long 15° 54' W.

1837. A Staring to The Southern

Sunday This day has been attended with fresh winds from
S. by E. by N. & quite an choppy sea through
the day. Ship on the Breeze as usual for fish
but not anything has been in sight. So Ends
This day Lat. 54° 11' South. Long 153° 42' west.

Monday
July 13. All these 24 hours fresh winds at N. E. by East.
It some squally & rough. On in fine unfavorable
weather for the Trade throughout the day.
Transactions Consisted in Repairing Boat & closing
an occasional vent in No. 2. & Gallantails & 6 1/2 ft.
Saw no signs of any big boats. So the day Ends.
Lat. 64° 5' South. Long 153° 15' W West

Tuesday
July 14. Winds from the E. S. E. & the were quite fresh
& mostly fine & pleasant weather for the Trade
withstanding the storm were within our limits. But
consequently the stock being so extremely scarce
it must be made the worse and at the times
also in whaling. Transactions This day has Consist
in coopersing about 500 lbs of Oil in readiness to
steer down Sea. So Ends the day Lat. 70° 13' S

Wednesday
July 15. All these 24 hours fresh winds from the North
& East. & rather unfavorable kind of weather
for the Trade. Transactions has consisted in
Stowing down the above mentioned Oil in the after
hold. & Thus Ends the day Saw nothing of
any boats. Lat 71° 11' South. Long 153° 42' west

Thursday
July 16. Wind from the N. E. & fresh breeze & the
weather favorable for the Trade throughout the day.
Transactions has Consisted in bending another
Mainmast. for instance to give the other what
is termed a 1/2 ft. & bent the Fore & G. Sail for to
give him his stick again aloft & 6 1/2 ft.
So Ends & nothing been in sight Lat. 10° 40'

Friday
July 17. This day fresh E. N. E winds & some squally
& unfavorable weather for the Trade. Transactions
in unbending fore & G. Sail & repaired it & bent it
again. Saw many Cowfish So Ends Lat. 11° 42'

Saturday
July 18. All these 24 hours fresh breezes from the N. E.
& equally attended with much rain & extremely
low weather for the Trade. Ship Standing to
the S. & East. Transactions has Consisted in
Saturday works Saw Nothing So Ends
Lat. 12° 20' South Long 158° west

1837. & for the Society Islands &c

Sunday
July 19. Breeze from the N. by E. to S. E. & cloudy, rainy, squally, & much disagreeable & very unfavorable weather for the trade throughout the day. Ship standing to the S. & East in search of the "beasts of the sea." but saw not even a sign of them till the day. Lat. 13.42 South

Monday
July 20. Winds from the North by E. & the breeze strong & very unfavorable kind of weather for the whaling trade. Ship under all reasonable sail, making a long lunge to the S. & East. Transactions in whaling has consisted in mending the foresail to put a few pieces of new cloth in & about the worn parts of it & close the occasional rents. H. H. H. & lost it again. So this day (and) nothing been in sight of the whale. Lat. 14.27 South. Long 153.00 West.

Tuesday
July 21. This day has been attended with strong Northwesterly winds & squally & very unfavorable weather for the occupation of whaling. Throughout the day Transactions remain extensive, & not the thing has been in sight to attract our attention. & thus the day ends standing to the S. & E. by the wind. Lat. 14.53 South. Long 154.44.

Wednesday
July 22. Throughout this day winds from the Northward & fresh breezes & clouds. Alternately, intense heat with squalls, & various quantities of rain. H. H. H. & in fine the day has been unfavorable for the trade. Ship standing to the S. & East with some transactions not extensive. Saw nothing to attract the least attention. & thus the day ends so. Lat. 15.13 South. Long 155.00.

Thursday
July 23. All these 24 hours, tolerable good weather in the forenoon. Still squally, something squally "betimes." Ship under all necessary standing on the course to the S. S. E. with a fair wind & from the Northward. Saw as usual, no "beasts of the sea." Transactions, has consisted in mending & stringing up shrouds & so ends. I believe making long strides for the Port. Lat. 16.30 South. Long 156.12 West.

Friday. This day begins with a great northerly wind &
 heavy M. pleasant weather. Wind spouts something squally
 with rain. Later strong winds from the same
 & squally rain, raised unparalelled swells to
 the beach. Instructions rather light, notes, as
 in long view & sailing up, schools & passing &
 working ship. Mr. M. D. West, of the Isle
 of Southsea leaving S. Dist. 15. Writes
 H. L. Ends this day R. sup.

Feb. 25. All the day high northerly winds & squally mixed
unfavorable weather for whaling. Sailed under 3 men
sail & standing around the above Isle for the
purpose of finding my fish, but as usual we saw a little
nothing, but near the end of the day saw the
corner of the Isle of Tahiti. Provisions abundant...
In Union Bay.

Sunday
 17th. Wind from the North N. E. breeze in general light
 almost with an occasional squall. H_o. but in line it
 has been tolerable weather for the Pass. Throughout the
 day. Ship made her sail west of the day & was going
 up to shoot seals in search of the vessels of the sea
 but saw nothing of their nature. H_o. But had 4
 seals near the Isles of Parila & Coma. B. Pachena.
 So Coma with the said Isles 15 to 20 miles distant.

July 27. Commenced the day with light rain. Breezes & pleasant. Wind to mostly calm. Sea calm and light breezes from the N. West. Breeze quite freshening weather. Providing the fish were found but the crew is no fish. H. S. it is. H. B. Transactions. Has consisted in many small sorts as repairing Top, Staysail, shifting on main rope to it throughout. Making S. spars & setting up shrouds. H. B. S. Ends with. Told to in sight.

July 28. This day the winds mostly from the N.E. W. excepting smart breeze, in squalls of which were met a number "together" with rain throughout the day. Barometer very light. Saw nothing but the Blue Isles. It thus ends the day so so.

1837 Cruising about the Society Isles

Wednesday
March 1
1837. This day has been attended with light winds & shifty
and much rain with squalls &c. &c. Ship under all
sail, sometimes a Cruising for whale but saw not the least
sign. Transactions noways Extensive So Ends the
Day rainy Ltt 16. 55. South Long 14 3. 10. west.

Thursday
March 2
This day Commence with fresh Northwesterly winds & some
rainy. Middle & latter parts strong winds & heavy
squalls from the N. N. W. attended with copious quantities
rain & rough sea &c. At 10. A. M. I saw four or six
Porpoises. & bore the ship too under the storm
sails. Transactions in ships duty very light though
the day saw nothing worthy of mention & thus the
day Ends with weather extremely unfavorable for the
Trade No. Ob. Ltt.

Friday
March 3
The first & middle part of this 24 hours, high winds
& heavy squalls from the N. W. & attended with
plentiful of rain. ship under storm sail flying too
Latter part more moderate & quite fine &c. &c.
for the Trade. Made all sail & stood on a
hunting As usual, but found no game.
So the day End with Tahiti in sight.

Saturday
March 4
Begins with fresh winds at N. N. W. & the weather
fair for the Trade. Middle very squally with rain &c.
Latter part strong winds from the N. W. & some
squally. & very unfavorable for the Trade. Employed
variously. Hunt another N. W. Porpoise. &c. &c.
& as usual the occasional works of this day. So Ends
with Tahiti in sight.

Sunday
March 5
Commences with strong breezes at N. W. to West. &
quite pleasant. Middle part squally attended with
large doses of rain. Latter more fine & pleasant
& winds decreasing. Made all sail. & stood on
for further against head winds & current. Saw nothing
this day. So Ends in the afternoon.

Monday
March 6
Begins with light westerly winds & pleasant warm
weather & very fine for the Trade. Middle part
light baffling. This mostly from the Eastward.
Latter part Chock Calm. Employed in
ships duty. Saw a ship near the fore end of
the day but nothing of the nature of the
whale. So Ends this day So Calm
with Tahiti in sight.

1897 Arrival & arrival to Anchor

Monday
March 8. The first & ^{morning} part of this day heavy calms & fine warm weather for the Trade. Latter part light breeze from the Eastward to E. N. E. This wind full sail standing for the Island of Bahita. Transactions consisted in various jobs of this day. We before mentioned ship being in sight & many pieces of sticks of wood, trees bushes, ships old coconut, shells, birds, etc. etc. but saw no fish. So ended the day with Bahita 15. 12. 11. End

Tuesday
March 9. The first & middle part of these 24 hours fine & gentle breeze from the Eastward to E. East S. very pleasant weather. Latter part light airs, & calm & very sailing nicely etc. etc. Transactions consisted in making preparation to bring the ship to anchor. In Bahita bay Bahita. At 11. 12. to 12. 12. we saw a boat for the pilot & brought him on board. I made several attempts to take the ship in, but as often as we were forced to consequently our intention is ineffectual. I near the day end of the day the boat went on shore for some potatoes, etc. etc. So ends

Wednesday
March 10. Throughout this day fine weather with 2 ships in sight. Breeze with very heavy calms & sometimes very heavy or in heavy occasional calm. I have made many attempts to get the ship in to anchor but all to no effect. I saw the other mentioned ships which was the ship Midway of the Midway of the ship. Bahita of mentioned in 15. Bahita the first said winds to ends, with a visit from the other ships or an gun

Thursday
March 11. Commences with heavy calms from the first part to 11. 12. to 3. 12. fresh S. W. winds & pleasant weather. After several short tacks & some maneuvers we made out to get in & at 5. 12. let go the anchor, in 5 fathoms of water. As like wise, in the other two ships in company with us, were. were taking the ship Midway of N. B. & the Bahita of N. B. I commenced the various port transactions, raffling Cash to take on shore etc. etc. for water. So ends to anchor

Friday
March 12. Bahita is where it is supposed two secondary comes together, so on this day, the transactions consequently were trifling, & the Sustain went on shore to their ship viewing the items of Bahita & some of the more items etc. etc. etc. etc. etc. etc. etc. etc. So ends to anchor

537. For Bebeba Bay. — Tahiti

Sunday. These 24 hours has been tended with fine warm weather, with light variable breezes, & some occasional showers of rain, but otherwise extremely pleasant throughout the day. As this day being, what we might term something converted or brought in contact with the day previous by that in some senses of the word, we are obliged to know it by the appellation of Monday. H. H. As our Transactions, in quite extensive in breaking out Oil to coopers in the main hold, & with a gun from the shore a belabouring the ship very lightly with his corking Mallet about noon H. H. So Ends

Sunday
April 23. Winds from the Eastward & the breeze fresh through the day. & the weather quite fine for whaling. At 6 P.M. Ship under her usual sail standing to the South & west. At 6 P.M. hauled on the line to the South & East. At 4 P.M. Tacked Ship & stood on the line to the North. At 11 P.M. Saw Jarvis Island Bearing N by West Dist 15 Miles. So Ends the Day with J. Island 6 miles Dist.

Monday
April 24. Winds from the Northward & Eastward & fresh breezes & fair weather. At 6 for whaling. Employed in repairing sails & other small jobs. Saw many porpoises & caught one. Jarvis Is. long distant to windward. So Ends Standing to the North by the wind. Lat 15.5 N. Long 160 W.

Tuesday
April 25. Fresh N.E. East Trades & something Chafing sea otherwise fine for whaling. Ship on the pump for whale but saw nothing but many porpoises. So caught one. Employed at repairing sails. At 6 P.M. Day So Ends Lat. 16.33 North Long.

Wednesday
April 26. All these 24 hours fresh Trades & quite fine for our occupation. Although not without some very light squalls of rain. At 6 Ship on the pump as usual but we were infinitely short of seeing the least mark of their track. These days. Transactions has consisted in mauling an Mr. Popsack. So Ends the day Lat. Long.

Thursday
April 27. Brisk Trades & pleasant weather but rather too large sea on real good fishing. Breeze at 6 P.M. under a press of sail. Standing into the Southward. But found nothing but porpoises. Employed in repairing sail. So Ends Lat. 16.27 Lat Long.

1837 Western ground, & G's Island

Tuesday Brisk Trades & pleasant, but rather rough
 April 28. Ship standing to the South & west for fish
 but saw none. Engaged in repairing sails
 to Endeavour Lat. 42° S. Long 163° 15' W. west.

Saturday
 April 29 Brisk Trades & mostly pleasant throughout
 the day Ship standing to the N. & West-
 in hopes as yet, but saw nothing this day
 Employed in the works of Saturday
 & washed the Charities forge &c &c &c &c
 to Endeavour Lat 44° N. Long 165° 10' West

Sunday
 April 30 All these 24 hours remarkable pleasant weather
 attended with gentle N. & E. Trade winds. Ship
 hovering her way off to the Westward not without
 some expectation of hunting some fish, some of
 the cays. &c. But nothing of their kind has been
 this day to Endeavour Lat 46° S. South.

Monday
 May 1st All this first day of May extremely
 fine & pleasant weather for whaling & fishing &
 in fact any other transactions &c. &c. &c.
 & light N. & E. Trades also the sea very smooth
 & tranquil. Together with a shower of a fine
 shower of rainy rain &c. The day transactions
 has consisted in taking a pul on the main
 Rigging & applying a new set, & afterwards too it
 &c. &c. Saw many porpoises & a breck or two
 in the distance but could not ascertain what
 they were. So, Endeavour Ship working to the west
 Lat. 48° 03' South Long

Tuesday
 May 2 Commences squally with rain. Middle part
 light & pleasant N. & E. Trades, latter part fresh
 & some squally. Ship working to the westward
 N. & E. & M. Saw a shoal of S. Whales under our
 lee run for them & loosed the boats in chase
 & after about 4 hours of what I call hard pursuit
 we gave up the chase, as the fish undoubtedly very
 wise & blessed with bright eyes & an excellent
 fluke as they bobbed themselves to the surface
 & returned on board to Endeavour
 Lat. 48° 03' South

Wednesday
 May 3 This day begins with fresh N. & E. Trades &
 squally & some rain. Middle part wind light &
 some squally. Latter part fresh wind from
 about N. by E. & some squally of rain &c. &c.
 Ship on the Pump for whales

Museum
May 13.

P. M. 6. A. M. Saw a shoal of whale under our
Sea Dist. 1/2 mile. Load the boats in. Chase & soon set
fast 100 fathoms of line. First times a panting & is
breaking. & some a drawing out or letting go their
hole. Hc. Hc. Together the Bow Boat coming in
contact with a whales face, so as to rend several planks
so that she readily sink. Likewise the waist Boat
received a sudden shock by one of fishes cutwaters, which
about 3 planks were broken between wind & the
water line. But however we succeeded in taking
3 fish to the ship. So Ends the day so & so
Lat. 40. miles S.

Fresh winds from
North & Eastward & the weather fair for the
trade Hc. Hc. Hauled in & out in our whales &
steered away the heads. got to be lying & filling
whole craft & boats Hc. Hc. & saw a porpoise
So Ends Ship on the move as usual. Hc. Hc.
Lat. 40. South.

Tuesday
May 4.

All these 24 hours recently fair weather for the
whaling trade with the trades fresh from the N.E.
& some rough sea on & on large swell on too. Ship
in the tramp as usual for the fish. But were seen
but porpoises. Finished loading the above whales
& cleared up & made ready for more Hc. Hc.
So Ends the day Lat. 40. South Long

Wednesday
May 5.

Weather fair for fishing and Mostly light N.E.
trades throughout the day. Ship on the ground
as usual. but saw nothing worthy of mention
Transactions consisted in getting new strips to the
upper blocks of the Cutting Dicks. & the common
saturday works. Hc. Hc. So the day Ends
Lat. 40. South Long

Thursday
May 6.

Begins with gentle N.E. trades & pleasant. Mild
and light. Latter part, fresh calm & warm & fine
weather Ship on cruising as usual for whale Hc. Hc.
Saw many porpoises & grasshoppers Hc. but no S.H.
So the day Ends So Hc. So Lat. 40. South Long

Friday
May 7.

Remarkable pleasant weather throughout the day
attended with breezes from the Northward. Hc.
Ship a sailing over the ground in search of
the fish. But nothing of their kind has been in
sight. Transactions has consisted in repairing
B. boat & some other works. So Ends
Lat. 40.30 South Long

1837 About the Line

1837 On Japan

A

Sunday Winds S.W. by West light breeze & unusually fine
June 25. & pleasant weather for the Trade throughout the day
Sailing a traversing the Sea of Japan even in search
for the whale, as usual. But sighted nothing
but a number of finback whales & porpoises, &c.
So Ends a fine day. Lat. 29.41 North &
P. found the Long to be 139 47 West.

Monday
June 26. All these I believe 20. & 4 hours, the weather
fine in the Evening, & the winds from S.W. by W.
& the breeze suitable for full sail. The Sea appears
to be smooth & tranquil. & favorable for the whole
trade. Ship as usual on the Heime with her
masts heads well masted. But factoring all that
has been sighted was a shoal of the porpoises &
an occasional pumpe. The Transactions on board on
this day was, Baking, only a small fuel on the Fore
Rigging & applying a number of new Larders too
&c. &c. Thus Ends the day fine. Lat 30.00 North

Tuesday
June 27. Pleasant weather, & winds at S.W. & the breeze gentle
throughout the day. Saw nothing to call our attention in
the least in the line of whaling. Engaged at making a
quantity of small rope for various uses or purposes, &c.
So Ends the day Lat. 30.10 North Long

Wednesday
June 28. The first & middle parts of these 24 hours unusually
pleasant & fine weather, & gentle breeze at S.W.
Latter winds shifted to the Northward, accompanied
with showers of light rain & foggy Clouds &c. &c.
Sighted nothing worthy of mention. Transaction
not extensive. So Ends the day fair for the
Trade Lat. 30.30 North Long

Thursday
June 29. Winds from the Northward & fresh cool breezes
& the weather not very pleasant for the Trade. &c.
continue to angle but with small or very small
success. & this day too. have not sighted anything that's
worthy of mention. Transacted some work in
line of the Rope makers. So Ends Lat 31.00
Long....

Friday
June 30. Winds from the Northward too N. East. & the
breeze fresh & cool. &c. & the weather fair for
Duty, jackets. throughout. Sighted a finback
jumped a porpoise & a fish. & many core & ship. Jaws
&c. &c. But whales. Spent more, Engaged at Ship's Duty.
So Ends this month of June. Lat 32.05 North.
Long

Monday July 3. Winds S. E. & the breeze very light. & the weather unusually fine & pleasant, warm &c. Sea smooth in the extreme throughout the day. Ship as usual on Trawl &c. & sighted about 2 two finbacks whales. But as to the sperm fish they appear to be shying. scarce in every sense of the word.

Transactions morning. Extension to the day Ends Lt. 30. 13 North.

July 4. Throughout the day remarkable pleasant & favorable weather. From the trade of whaling &c. Attracted with gentle Southeast breezes & smooth sea Ship still on the cruise as usual for the whole of the P. M. or near the end of the day. A school of S. Whales here in sight to the windward of us, dist. 6 1/2 miles. & working to the leeward. All in our favor. So Ends the day a working the ship for them.

Tuesday July 5. Commences with gentle S. E. breezes & increasing & pleasant weather. At 1 P. M. the whales were heard off our ship about 1 mile dist. So we hoard all the boats for them & got up with them soon. & the L boat hooked on to the one. Whilst in the act of fastening, the fish store the boat some considerable. & the whale took to heels quite fairly, for some distance & finally took to sounding & look the line. & then they all took to their heels. & with more speed if possible to clear out of this, but we continued to chase them till sunset, but all to no effect. & returned on board. Mid. part fresh winds & some squally. Later part fine weather & gentle breezes, at about S. E. Smooth sea, &c. &c. &c. & thus Ends the day. & repairing the above mentioned boat. Lt.

Saturday July 6. All these 24 hours, unusually fine & pleasant weather. Breeze with gentle winds from S. E. to E. North by. & fine smooth sea applicable for the Trade &c. & about 10 A. M. Saw a number of S. Whales to the windward of us dist. 4 to 5 miles. & consequently we worked the ship for them, & made preparations to give them chase. & even launched the L. boat & urged her on. At 10 Leaved on the boat, & after them. & after waiting so... & maneuvering rather with. & that for the fish I believe was very quick sighted. & so they perceived the boat, & betook these to the windward & that too out of sight. & we returned on board again with no fish. So Ends the day Lt. 29. 34 N.

Book the line

1837. A. Whaletaking in the

Thursday, Commences with fresh S.W. wind & the weather.
 July 13. fair. H.C. At 3 P.M. Saw whales & chased the
 boats for them. Hooked one & at sunset got
 him to the ship & chained. Mid: & Latter part
 strong winds from S.W. & rainy threatening weather
 but however hooked on & cut the fish in. &
 Cleared away the head H.C. So Ends quite sugar.

Of the Times

16

Wednesday

August 2

The first part of this day brisk winds at E N E
 & quite rough weather. & we saw the whales that
 the other ship, had been chasing, coming to the
 windward lively, but however we hoisted our boats
 for them, but all to no effect as they far outstripped
 our speed. & continued in sight to the windward
 of us until sundown & still under lively headway
 H. H. & M. S. P. spoke the above mentioned ship. & she
 proved to be the Admiral Cochrane of London with
 600 lbs. & their boat came along side some 1
 or 2 hours or so. Middle part winds more moderate
 & N E. & weather fair. Latter wind fresh at N E.
 & a heavy swell of the sea, H. H. & M. S. P. about 11. A. M.
 saw as we supposed the above mentioned whales to the
 windward, of us dist. 3 miles. Worked the ship for them
 & set a signal for the ship, which were under
 our lee, some 3. to 4 miles & thus ended with fish
 to windward of, dist 2 miles. Lat 32 North.

Thursday
 August 3

The first part of this day winds fresh at about N E.
 & large, tumbling swell on H. & we chased all the
 boats for the whales as likewise did the other ship.
 & flushed away at them rather wide, & came on board
 & took up the boats. H. & chased with the ship for an hour
 or so. & then down 3 boats. & put in for them again
 but rather strange games was played with them as
 it appeared, but we continued the chase until
 sundown & then we were forced to give over &
 come on, with no fish. A common consequence these
 days, as it seems. & the other ships boats appeared
 to be picking them up sharp H. Middle part
 light air & calm. Latter part
 fresh calm & a large reaching heavy of the
 sea or swell. So ended & the Cochrane out
 of sight. Lat 31 1/2 North. Long.

Friday
 August 4

The first part of this day perfectly calm & warm &
 pleasant weather, although attended with an distressing
 swell from the North & East. Middle part very
 light air mostly at South & East. & pleasant H.
 Latter part light breeze from the S. E. & increasing
 to a brisk breeze from the same. & soon became
 cloudy & squally with some rain H. H. Ship on
 the point as usual & many fowls & porpoises
 came in view. Transactions consisted in ship's
 duty but of rather a light nature H.
 & so ended this day. Lat 31. 40 North

Long

On Japan -

Monday August 5. The first of these 24 hours brisk breezes at the S. E. S. squalls with small rain &c. Saw many numbers Mid. light breezes from the South. Latter part light air, or nearly calm & pleasant weather. Saw 2 ships & in the distance. Transactions consisted in the duties of the day & stowed away a small number barrels of oil in the Run &c. So Ends This Day Lat 31.45, North. Long 203.30. West

Tuesday August 6. All these 24 hours fine & pleasant weather, attended with an variety of breezes from a Chop calm to a brisk breeze, & very shipy. &c. &c. Ship on the Pump as usual. Saw a number of grampuses, &c. The other ship remains still in sight. Thus Ends the day Lat 31.23, North. Long

Wednesday August 7. Begins with light breezes from the S. E. & increasing &c. Pleasant for the Trade. Mid. & Latter part fresh to strong breezes S. E. & S. E. & very squally & cloudy rainy unfavorable weather. Ship under storm sail, lying too far better weather. &c. &c. Saw 2 ships under our Lee about 10 miles distant. & This Day Ends. North. Observed the water to be green

Thursday August 8. The first part of this day high winds & sea from the S. E. & cloudy rainy bad weather. Ship under storm sail. Mid. winds more moderate &c. Latter part fine weather & gentle breezes from the S. E. smooth sea & favorable for the Trade. &c. &c. Ship under full sail on the cruise & many purposes has been in view. Observed the water to be colored So Ends. Lat 30.12, North. Long

Friday August 9. The first & Mid. parts of this day fine weather & gentle breezes at S. E. Latter part brisk breezes from the East, & squally & quite rugged weather. Ship under short sail, a sweating over the waves in search of fish, but nothing came within view. Transactions not extensive. So Ends. This Day Lat 29.50 North. Long West.

Saturday August 10. This day begins with strong winds from the East & very threatening weather. Ship under close sail &c. Mid. part winds at S. N. E. & blew on quite heavy & very rugged. Latter part winds at S. E. & increasing. Took in "low boat" & hoisted the others & lashed & secured the hatch & various concerns in & about the ship. Carried over

1837

Jaffar

Wednesday August 15. Weather. Extremely fine & pleasant warm H. H. -
S. breeze light & gentle from the
S. East. Ship as usual, a Pumping for fish, but
no signs of any seen. Transactions Consisted chiefly
in repairing Waist, Boat & setting up. Sheets
Rigged in the Flyjibb room & stowed away the
Rigging belonging thereto. So Ends this day
I observed the weather to be quite of a good
Calm H. Latt. Long 157.41 West

Thursday August 16. Weather remarkable pleasant. S. Winds light from the
S. East Throughout the day. Transactions has consisted
in Coasting the Oil of the East Fish. & Stowing
it down. Nothing came in sight worthy of mention
in relation to the whale. S. Thus Ends the day of
good warm comfortable sweating weather H. Latt. Long

Friday August 17. Winds S. E. to S. W. & the breeze meeting very light
& weather pleasant in the Extreme throughout the day
Transactions has been various such as stowing off the
empty Casks from off deck & fitting some rigging
& painting waist Boat H. H. Ship under
full sail Standing on the Cruise for more fish
but none came in view. but near the End of the
day we saw a brother whaler, about 12 miles dist
from us. S. Thus the day Ends S. Latt. Long

Saturday August 18. The first & middle parts of this day fair & very pleasant
weather. S. the winds S. W. to West & gentle breezes.
 Latter part winds hauled out the Northward & the
 breeze with light squalls of rain H. Ship on the
 march H. but nothing came within our view
 worthy of mention. Transactions has Consisted in various
 works such as repairing the Rigworks & fitting ship for
 Friday H. H. H. So Ends the day. Latt. Long

Sunday August 19. Pleasant weather all these 24 hours. All day
 with very light breezes from North to West
 Ship under full sail. S. Pumping the whale over
 for the whale & a number of grampuses seen only
 engaged at repairing sails. S. the remainder duties
 of the day were attended H. H. H. Thus Ends
 Latt. Long

1837 of Japan

Monday August 26. First & Mid. parts of these 24 hours being Calm & warm. Hc., Latter part, gentle breeze from the S. E. West, & the weather very pleasant, & fine summer & favorable for whole fishing. Ship under full sail as usual on the "mont" Hc. & from 4 to 6. Finback whales has been in sight only. Transactions has consisted in the duties of an ordinary day. So the Day Ends. Lat. 32. 11. N.

Tuesday August 27. Winds from South to South West, & gentle breeze weather pleasant. Sea tranquil & favorable in the Extreme for the Trade. Ship is traversing the ocean as usual, in search of whales. & all that was sighted was an lonely S. E. Whale. Defected finback whale. So this Day so fair Ends. Lat 31. 39 North. Long

Wednesday August 28. Winds at about S. West, & the breeze gentle throughout & the weather remarkable pleasant. Sea tranquil & in fine. Extremely favorable for the general work in the line of whaling. & we continue to tramp the ground over, but apparently to no effect or benefit, as there has been no sporting fish in sight. This Day so fair. Employed at Ship's duty & making some small repairs for various uses Hc. Thus Ends so fair a Day Lat 31. 30 North. Long

Thursday August 29. Winds S. W. gentle breeze. & the weather pleasant in the Extreme throughout the day. Several finbacks, fish has been sighted only. Employed in ship's duty. So the Day Ends very fine. Hc. Lat 31. 11. North. Long.

Friday August 30. Winds S. W. fresh breeze & pleasant weather. Hc. & Sea smooth. & Extremely favorable for the Trade, throughout the day. Several finbacks has been in sight & some purposes. But S. fish not a trace. Transactions has consisted in various branches of Ship's duty. & Thus Ends a Day fair Lat 30. 40 North.

Saturday August 31. Winds S. West, fresh breeze. Extremely pleasant, & favorable for the Trade throughout the day. Ship on the Tramp, as usual. & at 8 P.M. saw a number of Sperm whales to the windward of us, worked the ship for them Hc. & Leard 2 boats for them. & 4 boats got fast soon. & then Leard the other 2 boats but seemingly to no effect as the best ones betook themselves to the windward so we took one to the ship. So Ends. This Summer 40th. Lat. 30. 44. N.

26.

Tuesday
Sept. 12.

The first of this day fresh winds from the S. West & heavy clouds. The ship under short sail & tramping. Mid. part. Winds fresh to a calm & slightly - to a good share of rain. The latter part. Winds shift to the N. E. by North. & blew a brisk gale & rough sea on the ship. Took in low boat. The ship under close sail. & we saw in the distance to windward of S. to E. End. Lat. 30. 15. North. (see brother's Spectator)

Wednesday
Sept. 13.

The first part of this day Brisk winds at N. E. & mixed unfavorable weather for the trade & at sunset the ship was in sight - a hour of us. Mid. part. winds rather more moderate but still quite rough. The latter part. fresh breeze at East N. East & quite favorable for trade. At 5 A. M. saw 2 ships & we spoke them the Glarist of London... & the Brighton of N. Bedford & the Capt of the latter ship. Came on board of us. & at 10. A. M. ... the B. ton. saw whales. & we chased away the boats from both ships & got one, in company & our L. boat got store quite full of ends with the whale dead. Lat

Landed. 6th day

Lat. 30. 15. N. W. 1/2 S of the B.

Thursday
Sept. 14.

Winds from the N. & West & fresh to a moderate breeze. throughout the day. & we took the whale to Brighton & that too with a deal trouble & what I may term a large share of hooking. The owing to his limping very heavy. but however we chained him up. & made ready for sailing. At 9 A. M. got the head of the body in with the exceptions of about 2 blanket-pieces which were lost by the piece tearing of together with a small share of. P. I. I. yes & there. & the fluke chain parted very soon & down went the remainder with several fathoms of chain. & some time & effort to boat. & we the Larboard & assist boats crew returned on board for the night. morning took in our stern boat & began to refuse her & then the B. ton. cut in the head & C. & the got to sailing. At 10. A. M. saw a ship to the windward a sailing. Something strange & saw the Main S. G. sail. & sent another one to ends with pleasant weather & the Latitude. 30. 58 North & the Longitude West.

1837

Cruising for Whale

75

Friday
Sept. 15. Winds N. N. W. Brisk breeze & quite raged for the
trade throughout the day. Ship on the Pump as usual
in company with Ship Brighton & she is fishing
the hump of the whale in Co. H. & our transactions
consisted in repairing Leeward Mast. So the day ends
Lat 30. 29 North. Long 1 West.

Saturday
Sept. 16. Winds fresh at N. W. to N. E. & on heavy swell
of the sea from that quarter throughout the day.
Ship under a press of sail on the Cruise for whale, &c.
in company with Ship Brighton. Transactions consisted
in taking on board from the Brighton the bulk of
the Oil of the Whale in Co. & starting it into our
Cask H. &c. & the works of the day were attended
to as usual. But saw no big fish. So ends a day.
Lat 30. 30 North. Long. West.

Sunday
Sept. 17. Weather pleasant & favorable throughout the day. & the
winds at N. E. & gentle breezes. & fine for whaling
Ship a towing over these waters as usual but all to no
effect as no fish that sports has been sighted.
Ship Brighton Skipper came on board on board on
two in the evening & thus ends a fair day.
Lat 31. 15 North. Long West.

Monday
Sept. 18. Winds from N. E. to S. E. gentle breezes throughout
& extremely fine & pleasant & favorable for the
trade. Ship on the Pump as usual. Saw a number
of grampuses only. Transactions consisted in repairing
a main topsail. & thus the ends fair & pleasant
with our consort in sight under our lee 12 to 15
mile dist. Lat 31. 40 North. Long West.

Tuesday
Sept. 19. Winds from S. E. to S. W. & gentle breezes. Weather
pleasant in the extreme & favorable for fishing
through the day. Saw several finers only. Spent
whole at shocking scenery. Employed in repairing
sails. &c. & about the far of the day we
lost sight of the Brighton our consort.
So ends a fine day. Lat 31. 50 North. L. 19. 15 W.

Wednesday
Sept. 20. Winds from the S. W. to N. N. E. & fresh breezes
& some showers of light rain otherwise pleasant for
whaling through the day. Ship under more or less sail
night a steering to the Eastward. Engaged at repairing
sails & bent another S. P. topsail. &c. &c. &c. &c.
Saw many finbacks. But no big fish in our line
So ends. Lat 31. 22 North. Long 19. 22 West.

1837 Working to the Eastward

Thursday Sept. 21. Winds from N. N. E. to E. S. E. fresh breezes. &c. &c. favorable for the transactions of whaling. Ship under full sail & paying the deep in search of whale & that too, of no apparent effect. As there has been nothing sighted excepting several finers - Employees making & fitting a pair of M. P. G. Sheets & various other fancy works. & thus Ends. Lat 30. 15 N. Long

Friday Sept. 22. Winds from E. S. E. to S. S. W. & fresh to a gentle breeze. Extremely pleasant & favorable for fishing providing we could see any fish to set upon. only 2 or 3 finback whales has been seen but we do not presume to try them. as yet. Employees in works about the ships rigging & so Ends standing to the Eastward. Lat. 29. 55 North. Long West

Saturday Sept. 23. This day begins a very light & calm at S. West Middle part, Choke calm. Latter part a light breeze from the Southern board & fine warm smooth pleasant weather. Ship a fairing to the N. E. East. & nothing has been in sight worthy of mention. Employed at Coopering the Oil of the whale in Co. about 34 barrels & stowing it down. So. Ends. a day smooth & warm. &c. Lat. 30. 13 North. Long W.

Sunday Sept. 24. The first part of this day has been calm. pleasant & warm &c. Mid. part light breeze from the S. W. & still pleasant weather. Later part, the breezes set at N. N. W. & gentle. & clearing & raining much. the End of the day Ship standing to the N. E. E. & saw nothing to attract the attention in the least. Thus Ends quite rainy. Lat. 30. 40 N. Long

Monday Sept. 25. From the first to 6 P. M. gentle breeze at N. E. W. & pleasant weather. ship under full sail & standing to the N. E. East. Mid. the wind hauled out N. E. & blew & fresh & brisk. & became some raged for good fishing. I would have said whale fishing but no fear. as there is apparently no Whales to be seen these days. but however we caught a number of small fish. So Ends. Ship under short sail. Lat. 30 00 North.

Tuesday Sept. 26. Winds brisk at E. N. E. throughout the day. & some raged. Ship under short sail standing to the N. E. the same. Transactions noways large. Saw nothing as usual. & thereby Ends too. Lat. 31. 03 North. Long West.

Thursday
Sept. 28. Winds S.E. & brisk breeze. & Cloudy, raged unfavorable for the Trade throughout the day. Ship under a press of sail & steering by the wind to the North & East. Transactions not extensive. & nothing sighted. So Ends. Lat. 32.55. North.

Friday
Sept. 29. Winds from S.E. to S.W. & breeze Brisk & some rain by squalls & quite raged for the whole day. Transactions. Hb. Hb. Ship under full sail steering East to East S. East Employed about the rigging. Hb. Nothing has been received to attract the least attention. & So Ends. Lat. 32.47 N. Long 193. 00 West.

Saturday
Sept. 30. The first part of these 24 hours brisk winds from the S.W. & quite choppy. Hb. Ship under full sail & steering E.S.E. the Course. Mid. part, wind winds hauled out at N.W. & the breeze equally Brisk with the addition of some squalls & rain. & Col'd all hands & shorted sail according. Latter part the weather appeared more settled & we made all sail again & steered the above Course. Making I believe, long & rapid strides for port. Transactions not over Extensive in Ship's duty. Nothing sighted. So the Day Ends. Lat. 31. 27. North. Long 190. 00 West.

Sunday
Oct. 1. Winds from N.W. to N.N.E. fresh breeze throughout the day. Ship under full sail steering E.S.E. the Course Employed in tacking & landing another 2. Fore & Main sail & then too. that is calculated to have a full when speed is required. Hb. & near the day of the day saw 2 finback whales. & we supposing them to be of the Sperm kind & therefore made preparations to give them pursuit. But when they came within a plain view we saw what they were. & Turned back again & left them stern. So Ends. Lat 30. 01. N. Long 186. 00 West.

Monday
Oct. 2. From the first to 11 P.M. Brisk winds at N.E. by N & pleasant weather although some raged. Hb. Ship steering by the wind to the S. & East. Mid. part winds became light & hauled out S.E. by E. & we backed Ship. Latter part light breezes at about South. & weather fair. Notwithstanding the sea being noways tranquil. owing to an extremely large swelling swell from the Northern land. Hb. Hb. & At 6. N.M. Saw Sperm whales to weather of us, worked the ship for them & loosed all the boats in chase of them. But fortune proved unfavorable by some means or other. Or at any rate we could not catch, nor or them or even. One owing probably to the fish going lively & being I believe very wild withal. & that too, very unfavorable time to sight them from the boats. & we came on board & the fish off to windward. So Ends

Lat 30. 00 N. Long 183. 00 W.

1837. A. Working to the Eastward

Monday
Oct. 2. Winds from S. to S.W. & the breeze gentle & weather very pleasant throughout. Sea appears to be rather agitated, with an heavy swell from the northern board however, Ship under full sail. Steaming East to S.E. Transactions has consisted in unbending the foresail & Breeasting it with new pieces of Duck, & closing the occasional rips, &c. Sighted nothing to attract the least attention. Thus Ends. Lat. 29.54 North

Tuesday
Oct. 3. Long. 175. 00 East. The first part of these 24. hours, light breezes at S.W. & pleasant Ship under all. Drawing sail steering N.E. Mid. part the breeze made out to the North & Cloudy weather. Latter part winds from N. to N.W. & fresh breeze, Ship standing by the wind to the East Transactions on the day, &c. Finished repairing the Foresail & bent it. & saw some more running rigging & got to repairing a fore. T.G. Sail, & at 4. P.M. or near the day End of the day Discovered a school of Spinn fish, something to leeward of the Ship. They pointed the air faster for them & made ready for to tow the boats & try a bait or so among them. but Day Ends so & fish ahead East 2 miles. Lat. 30. 00 North Long 176. 50. 00. East

Wednesday
Oct. 4. Winds all the way from North to East & the breeze mostly brisk & the weather fair. But the sea some raged. throughout, &c. Transactions on the day &c. We set superficially mean the whales & towed the boats in chase. & soon got fast to one & him to a bleeding at nose, some considerable, but the fish in evil one too, & took himself so far down under water, so that our string were to short at one Ends consequently we took the whole of it, however one boat had to heave back otherwise it is supposed, her string would have matched the short at Ends. So the fish bent his way to windward far beyond our speed, & consequently we gave up the chase & returned on board, & a number of light jobs were attended to such as, fitting Craft & coiling a new line &c. &c. & Thus Ends the day so & so. We resumed what we term Whole Watches

Thursday
Oct. 5. Lat 30. 00 N. Long 172. 20. West. Winds from about East & the breeze strong & raged but weather, nearly the whole of the day Ship under close sail & standing to the north by the wind. At 5. P.M. took up bow boat & hoisted the others up. &c. Long 174. & near the End of the day we set the topsails & jib & by an occasional shot or round of the ship, caused Cast the rope to part which rendered it unfit for duty, so unbecom it & began to repair it. So Ends Lat 31. 15 North

1837 Oct. Working to the Eastward

Friday
Oct. 6. The first part of this day strong to light breezes at East & pleasant weather. Ship steering to the north of the wind. Mid. & Latter part, Chok Calm. Transactions has wholly been confined in repairing the jib. Saw nothing of the whale but near the day end of the day caught a Surf-fish. So Ends Lat. 31. 17. North. Long 177. 45. E.

Saturday
Oct. 7. This Commences with an very light breeze from about S.W. & pleasant. Mid. part winds hauls to the N.W. & the breeze fresh with squalls & some rain &c. Latter part the wind out N. & the brisk. Ship a steering to the Eastward under full sail. Transactions Consisted in making a finish of repairing jib & bent him &c. & the Duties of the day as usual were strictly attended to. H. H. Sighted nothing to attract the attention in relation to big fish. Thus, Ends. the day. So. Lat. 31. 15 North. Long. 179. 30. W. East.

Sunday
Oct. 8. Winds at about N. & Brisk breeze & quite rugged & chilly kind of weather throughout the day. Ship under a press of sail steering by wind the East, northward. Sighted a school of porpoises. So Ends. Lat. 31. 26. N. Long 178. 11. W.

Monday
Oct. 9. The first part of this day Brisk winds at N. by E. Mid. the breeze moderated away to light breezes. Latter part, very light winds, & still at the N. by E. & the weather fair through the day. Ship a standing by the wind to the East, Northward, with all sail spread. The works of the day has consisted in overhauling the Steeringsails, both of aloft, & repairing & bending more or less of them, & taking aloft the Booms & rigging belonging therunto, &c. Whales Saw none. So Ends. Lat. 31. 01. N. Long 177. 00. West.

Tuesday
Oct. 10. Winds this day Begins light & too gentle breezes, from the N. & Westward. & pleasant weather throughout. Ship under all sailing sail a steering to the East or East 2 points N. the Course. Transactions has Consisted in, bending long sails & spreading them aloft to the breezes, & got the Fly, Jib, Boom out to its port or entry. H. H. Sighted nothing. So Ends. Lat. 31. 08. N. Long 176. 06. West.

Wednesday
Oct. 11. Commences with light airs at S.W. Mid. part a Chok Calm. Latter part a light breeze at S. S.W. & the weather very fine throughout. Ship a sailing to the Eastward very gently. Completed in Ships Duty. Bent the jib, &c. &c. & no fish Sighted. So Ends. Lat. 31. 10 North. Long 174. 50 West.

1837 Bound in to L. Islands

Thursday Oct. 12. All these 24 hours remarkable pleasant weather with light breezes from the N. E. W. Ship standing to the S. E. under all Draining Sail. Transactions consisted in various works on the rigging & got a pul on the lower & Foremast rising forward &c. &c. Lighted nothing in the least. So Ends. Lat. 31. 15 North. Long. 173. 30 W.

Friday Oct. 13. The first & Mid. parts of this day with westerly Air & calms. Latter part gentle breezes a S. S. W. attended with an heavy swell from the Northern board. But the weather pleasant throughout - & the Ship under full sail a Steering S. E. the Course. Employed variously on the ship's rigging. &c. Saw a number of porpoises. &c. So the day Ends. Lat 31. 15 North. Long 170. 10 West

Saturday Oct. 14. This day begins with winds at S. by E. & Pleasant weather Ship under full sail standing the Eastward. Mid. part brisk winds from the same. & some rages. Shortened sail accordingly Latter part. Strong winds from the same attended with heavy squalls & much rain. & sea quite high &c. Shortened sail to an Close reefed Main & Tail & spencers. &c. Staysail, &c. & the works of the day were rather partially attended to. & we perceived the ship to come to the pumps some considerable. casks, some leaky. &c. & a number of porpoises been seen only. So Ends the day with high threatening weather. &c. &c. No. Obs. Long 168. 45 W.

Sunday Oct. 15. From the beginning of this day to 8 P. M. high winds from the S. E. E. attended with heavy squalls & rain & an rugged sea. At 2 P. M. St. sighted & bore the S. by E. Staysail. Early to pieces in a rapid squall. Mid. part winds moderate & very shifty & the swell high short & dousing & rain plenty, yes a full supply &c. Latter part weather & winds much the same & with the addition of more rain if possible & some thunder & lightning occasionally & sea much troubled with bad high swell but however we made some sail. & the ship under great motion a pitching & pitching, or keeping time with swell. So Ends. No. Obs. Long 165. 45 W.

Monday Oct. 16. This day Commences with light shifty breezes, & mostly from the western board. Attended with an uncommon high cross swell. Mid. part fresh winds at N. E. W. & made sail & stood East. But the ship rolled so heavy that we was in danger of losing our boats &c. &c. consequently we shortened sail & came too, heading the swell, to the S. E. E. lying in wait for the sea to fall. &c. &c. Carried up

1837

Bound. for the L. Islands

Letter part wind about the same & some squally, & the sea appeared to be rather more tranquil, so made sail again & stood our course, East, but not without many heavy lurches & slaps of the sails & rigging. He employed rather, anxiously, to mend the remains of the S. S. Tansail. Saw nothing or in fine no lookout aloft, weather too high for fishing. So Ends, Lat 34.36 North Long 167.00 West

Tuesday
Oct. 17

The first part of this day, gentle breeze from the W. S. W. attended with an heavy swell from the South, as usual. Mid. part, winds moderate to nearly Calm & great settling with sails. Latter part, very light Air & Calm & pleasant weather, but sea still rough with what we term seaworm water. He, He. Employed about the S. S. S. Sail & mending it again, He, He, He, & a number of porpoises has been seen only. So, Ends heading to the Eastward, & trying to get along, but the winds do not favour, Lat 34.26 N. Long 165 West

Wednesday
Oct. 18

From the first part of this day to 4 P.M. entirely calm, weather pleasant, & sea tranquil, to what it has been for many days or some weeks past. He, He at about 5 P.M. breeze sprang up at about N. by W. & continued light until 4 or 5 P.M. & then weather still pleasant, & from then until the end of the day, the breeze were fresh & set from N. by W. to N. E. weather cloudy & some thing squally with small rain & He, Ship, a tendency her way to the Eastward with all possible speed. He, Transactions not extensive, saw a number of porpoises only & looked to one but iron let go & were off. Thus Ends, Lat 34.05 North Long 163.20 West

Thursday
Oct. 19

Winds from North to N. E. veering alternately, to be moderate to a fresh breeze, & the weather fair. Sea tranquil throughout. Ship under full sail, & standing to the East. Employed in ship's duty & repairing shanks. He, Whales, scarce, & nothing sighted. & So the day Ends, Lat 30.46 North Long 161.35 West

Friday
Oct. 20

Winds from about N. E. to about S. by W. & the breeze alternately light to fresh throughout the day. Weather fair, although the sky cloudy & in the appearance of rain. He, Sea some considerable troubled with an depression swell, & from the Northern bound He, Ship under full sail throughout the day a tendency her to the Eastward, He, But very slow. Employed about the ship, & bent the shanks, He, He, Nothing seen from the myshians. So Ends the day, Lat 29.59 North Long 160.50 West

1837 Bound, in, Sandwich Islands

Saturday
Oct. 21. The day commences with light Southerly air & Calms & continues so until 7 P.M. & then S. B. sprang up at S. E. to East, & continue to the end of the day... weather fine throughout, sea not over smooth. Ship under full sail steering by the wind to the S. E. to N. & the works of the day consisted in darning of the sail & we hoisted on deck about 10 pipes of oil from between decks, which were sweating hard, & we applied the dived & hammer to them, & clapped them on again. H.C. & as to whales, sighted none so ends
Lat 30° 32' North - Long 160° 40' West.

Sunday
Oct. 22. All these 24 hours. Pleasant weather & gentle breezes from the E. E. S. E. Ship with all sail out, steering by the wind to the North, & East - Saw nothing to attract the least attention. So ends
Lat. 31. 34. N - Long 159. 50. West.

Monday
Oct. 23. The winds this day has been so very light that it is not worthy of mention. But observed the weather to be extremely pleasant, & sea moved very smooth throughout. Ship apparently under no headway. So our whole attention were taken up for clapping our hands on too Coopersing the oil between decks, & stowing it again, H.C. H.C. digested nothing from the masts heads that would make grease. But saw some considerable about our netter deck, which had apparently took from leave. H.C. H.C. The day ends, Lat 31. 50 N Long 159. 40. W.

Tuesday
Oct. 24. The first & mid part of this day has been what we term it, Choke calm. But the latter part or jag end of the day grew light breeze came from the S. S. W. & the weather pleasant & favorable in the extreme throughout. The works of coopersing has been driven, if possible to any greater degree of speed than usual for our folks. H.C. High, big. Saw none. The day ends steering East Southerly, and making way for port. Lat. 31. 50 N - Long 159. 00 West.

Wednesday
Oct. 25. The first part of these 24 hours, very light winds at S. S. W. & weather fine. H.C. make a finish of our Coopersing for this time H.C. H.C. stowed off. H.C. H.C. Mid. winds, S. E. & breezes about the same, latter part, fresh breezes from the same & fine weather, smooth sea H.C. Ship a working to the East, Southerly. Sighted near the end of the day a sail in the dist. So ends Lat 31. 18 N. Long 158. 58 West.

1837 Bound in. Sandwich Islands

Thursday 26. Winds, S. by E. too, S. S. W. fresh breeze & fine weather throughout. Ship under full sail & steering by the wind to the Southward & Eastward. At 4 P.M. three ships were sighted all standing the Southward & Eastward under apparently full sail. At 2 1/2 A.M. Night one of the ships under our lee set her light. consequently we ran down & spoke her. & found her to be the *Catara* of Sandwich. Who had on board the Capt. Officers & Crew (excepting the Cook who put an end to his existence) together with 4 boats & a few trifling articles which could be obtained of the ship James Colver of London. Which was set on fire on Thursday the 12 of this month. In the lat of 24.40 North - Long. 167.00 West. By their work (the above mentioned) & the *Catara* being much hampered up or confined for the want of room &c. Consequently we took on board one half of the crew & 2 Boats to carry into the S. Islands. At 4 A.M. Braced full & stood on. &c. &c. So Ends the day pleasant Lat 23.50 North - Long. 155.00 West

Friday 27. Winds about S. S. W. gentle breeze smooth water & pleasant weather throughout the day. Ship under full sail steering by the wind to the S. & E. Transactions rather moderate size ships, duty. Although many more on duty or on board about this time &c. Nothing came in sight as usual of the whale line. So Ends the weather fine *Catara* in company. Lat 23.20 North - Long. 154.20 West

Saturday 28. The first part of this day. Winds from the S. S. W. gentle breeze. Mild & rather fresh light Air & flattering & mostly from the Southward & Eastward. Ship a working to the S. & E. & that too very slowly. Transactions consisted in the duty of the day. Saw a number of porpoises, &c. *Catara* still in sight. So Ends a day with very pleasant weather. Lat. 23.30 North - Long. 154.00 West

Sunday 29. This day begins with light Air from S. E. At 6 P.M. Saw a gentle breeze from E. S. E. & to the end of the day fresh breezes from E. S. E. to S. S. E. & fine pleasant weather through the day. Ship with full sail & working in for the Isles. With all speed imaginable but that is very moderate. Saw no Bay fish. & the *Catara* still in sight. & bending no way way with all speed for part &c. &c. Thus the day ends. Lat. 26.50 North - Long. 154.14 West

537 Bound in. Sandwich Isles

Monday Winds S. E. by E. to S. E. by S. Fresh breezes throughout
Oct. 30. Weather fair, sea smooth water. Ship under
full sail. Steering by the wind, to the South by
South, 4. points West. Employed in jobs of Ship
Duty not very Extensive. Sighted nothing that
relates to the whale line. Ship. Catalpa still
in sight to windward of us some 10. to 12 miles
So. Comes this day. Lat. 25.40. N. Long 155.10 West

Tuesday
Oct. 31. Begins with winds Breeze from the S. E. & something
squally. Ship Standing to the S. E. by the wind.
At 4 P.M. Tacked Ship to the N. E. by E. Made part
Winds E. by S. & still fresh breeze, Tacked Ship to S. by S
by W. by the wind. Left part winds & weather the
same. Steering by the wind under full sail & H.
& in the course of the day saw strange sail under
am. sea Standing to the N. E. by E. & Catalpa
out of sight to windward of us. Transactions
consisted in various works of Ship's Duty & unboard
Mr. J. Gallantail & repaired it & bent it again. He
saw nothing resembles the whale. To End. the day
pleasant. Lat. 24.10 North. Long 156.00. West

Wednesday
Nov. 1. Winds dead an. End. or right in the teeth, or squall in
the nose. & that from East to South. fresh breezes &
Calms. Squally. Alternately. Ship under full sail
& reaching to the windward in a very moderate
way, or in to port. Transactions Consisted
in various works of Ship's Duty but very Extensive
Saw a number porpoises, only. Thus Comes this
day almost hung up. but want of a fair wind
Lat. 22.30 North. Long 156.20 West.

Thursday
Nov. 2. This day the winds has been rather more favorable to steering
from about S. E. to East & the breeze not over fresh.
but something squally at times throughout. Ship Steering
drift on the wind, under all sail. At 3 P.M.
Tacked ship to the North 2 points East. At 5 P.M. Tacked again
& heading S. E. by E. At 9. Saw the middle part of
Isle of Mooki. Bearing S. E. by E. 30 miles dist. Employed
in various kinds of Ship's Duty. To End. the day quite
fine, & wind favorable. At 11. Lat. 21.52 North. Long 156.34

Friday
Nov. 3.

The first part of this day fresh breezes from the Eastward & weather pleasant. Ship under full sail a standing in for the Isle of Mouche. At 3 P.M. Saw the East End of above Isle. & bore away for passage & set all running sail. H.C. At 6 shortened sail & southerly & came to the wind heading N.E. Wind fresh strong wind from the same & quite squally with rain H.C. H.C. H.C. At 12. Midnight. Bore away & stood in for the land. H.C. Morning or latter part made all sail & bore away for the passage. & made all the necessary preparations to bring the ship to anchor. H.C. & the day ends with Lashmar Roadstead in sight Dist. 10 miles & in usual winds fresh. & became light slightly & pleasant clear H.C. H.C.

Saturday
Nov. 4

Commenced with rain light & flattering ship making little or no way. A number of natives came alongside. H.C. & our boats crew of the James Colman, our passengers, left & hauled in to the shipping at L. Roads. & returned again at 5 P.M. with some potatoes H.C. H.C. While we there with an gentle fair breeze which took us up, & we came to anchor in 23 fathoms of water & furled our sails. H.C. H.C. in company with Phoenix Equator Abigail of N.B. Catherine, Shannon of Kent. Magt. of Warren. & our armed ship, some small craft H.C. H.C. Wind fresh quite fresh breezes & pleasant. & the crew left for Oahu in S. Hill. Latter part fine weather. All hands employed in the various proceeding & transactions which generally arises - Thus ends the day. To anchor at L. Roads

Colman's

Sunday
Nov. 5.

This day pleasant weather. & gentle breeze H.C. throughout. The ship went on shore on evening to view the sources of the lake & sand the foot. H.C. H.C. Arrived ships St. George of N.B. Mariner Catherine of Nant. off of cruises. The Smith the J. Colman crew or there that remained after we spoke them. Thus ends To anchor at L.

Monday
Nov. 6.

Pleasant weather throughout. gentle breeze H.C. H.C. the watch on shore to their Liby. The other waterlogged in fishing water on shore & taking some bread & flour on board from the Phoenix, & with men from the shore a corking about in various parts of the ship so. Ends To anchor

Tuesday
Nov. 7.

Fine weather & pleasant breezes throughout. The watch on shore on Liberty & the other gentle. Employed in painting ship H.C. H.C. Arrived ships Hammer Aster Charles Drew off of cruises H.C. To ends To anchor

1837 Bound. to, Isle. Oahu. &c.

Thursday Nov, 18. Fresh winds from the Southward, & Cloudy threatening or
raged unfavorable weather. All hands engaged in
various works about the Ship & Closing up the affairs
on Shore, & making ready for a start. So Ends

Friday Nov, 19. This day commences with fresh Southerly breezes & rather
Cloudy weather. &c. All the concerns being brought to a
close on Shore, & our recruits all in board & stowed &
settled to our journey. We then hooked down to the
Anchor & took down the Line, & got the Ship underway
for the Isle of Oahu. In Company with the
Ship St. George, but the latter part of day
appeared to be attended with light air & shifting &c
Consequently we have made no great headway or
distance towards the above mentioned Island.
Thus Ends the day Calm & St. George in sight

Saturday Nov, 20. All these 24 hours. Light shifting air & shifting. Calms
&c. &c. & rather hazy weather. unfavorable in the ex-
treme for our passage &c. Ship under full sail standing
towards the Isle Oahu, but as to headway made none
Transactions not extensive. Saw Oahu a long
distant off, & Mooki & Rami from 12. to 14
miles dist. Each. So Ends Calm & smooth sea

Sunday Nov, 21. All these 24 hours. Weather pleasant otherwise with some
light shifting air. occasionally. But otherwise that
it has been what we may term it. Chock Calm. &c.
Ship under all sail set, & standing to get
down to the Isle of Oahu, & it would have been as well
to have to Anchor. As respects the distance towards the
above Island none, So Ends Chock Calm

Monday Nov, 22. From the first of this day to 6 P.M. all dead Calm. &c.
from 6 P.M. to 6 A.M. a gentle breeze from the N.E.
which took us down to the Island, & off Diamond Hill we
saw a boat & took the boat of the one was James
Colins, in tow & went on Shore to Honolulu.
Oahu. & The day with fine weather & air light
breeze &c. Ship lying by in offing &c. &c.

Tuesday Nov, 23. Wind light & shifting weather fine throughout
At 4 P.M. the boat from the Shore & brought off
many things, or small stores, &c. &c. & at 6 A.M.
morning the boat went on again, So Ends the day
Ship lying by, off & on, &c. In company with
5 or 6 other whalers, &c. &c. & lying off
& on, at Island... on similar purposes

Nov 21 1837
Sailed from Honolulu

1837 Borne to the Southward

Wednesday
Nov. 29. Trades brisk at N.E. Weather Cloudy & squally, sea rough
with an heavy press of sail out. Employed chiefly upon
our Main-trees & the fastening to the futtock shrouds to
the Deponent-rigging &c. &c. Lighted nothing worthy of
mention Excepting many fly fish. Thus Ends the Day

Thursday
Nov. 30. Trades brisk at N.E. weather squally. & sea rough
though the day. Ship Standing to the S.E. under Double
reefed Topsails Lighted nothing worthy of mention.
Employed a while upon our futtock fastening &c.
So Ends this day. Lat. 10° 40' North. — Long. 156° 50' W

Friday
Dec. 1. Trades strong at N.E. with Cloudy weather & sea rough
very squally with rain &c. Throughout the day. Ship under
Doubly reefed Topsails & Courses. Steering S.E. the Courses
The watches Employed in Making & Tacking in sail
according to times of squalls. Lighted nothing to say
altogether to fish. So the Day Ends with heavy
Weather. Lat. N.E. Lat. ... Long 155° 18' W

Saturday
Dec. 2. These 24 hours begins with Strong Trades. & weather
heavy & threatening, & sea rough & cross. H.C. H.C. H.C. H.C.
& from 1 P.M. to nearly 3. Had a heavy squall of
wind & rain. Callee all hands & took in sail to a Close
Reef Main & Sail, & spencers. & the Ship made what is term
a weather bunk, or a sea took a motion to jump a
foul or in to the Bow, so that it became very
spear splitting her in twain, or at any rate broke
many planks & every thwart, &c. Consequently took her
in on Deck. H.C. & from 3 P.M. to 6. winds more
moderate. Set the S. & H.C. Topsails jib & 4. Shankles
& from 6 to 12 Midnight it blew in strong, attended
with small squalls, & rain thunder & lightning H.C. &c.
carried away jibsheet & split the sail badly. & then
shortened sail & bore the Ship too under Close sail &c.
& from 2 A.M. to the End of the day fresh Trades &
weather more fine Made sail accordingly. Employed in
repairing damages & other works of Ships Duty. So Ends a day
full of incidents &c. Standing to the S. & East
by the wind, Lat. 7° 24' 00 North Long 154° 40' West

Sunday
Dec. 3 The first part of this day quite pleasant & fresh winds
from the Eastward. Ship under all necessary sail bearing
S.S.W. Mid. high winds from the same with squalls
of wind & rain. Bore the Ship to the N. & E. & at
certain times, or, squalls. Hoist 3 Topsails on the
Cap & reefed a flying jib & jib, &c. G.D. Over

1837 2 A Cruising &

Lathey part Strong winds from the same attended with heavy squalls & copious quantities of rain & sea rough. H. Took in F. H. M. L. Topsails, mainsail &c. the fog of the day, squalls seem to give over some set the topsails again & stood the southward as was so ends, a flaring & taring H. H. & D. O. S.

Monday
Decr 4. Winds from the Eastward, fresh breeze therefrom & the weather very pleasant in comparison to what it has been for some days or weeks past. Ship standing to the Southward by the wind with all necessary sail set. Operations in which has consisted in repairing jib & bending it &c sighted nothing worthy of remark. The day ends, Lat. 4. 40 North - Long 154. 47 West

Tuesday
Decr 5. Gentle Easly winds, & the weather pleasant through the day. Ship standing to the South by the wind. Operations chiefly repairing main-beat. H. & to 2 finback whales been in sight. & an Landy Curfew on wing. The day ends fine. Lat. 3. 10 North - Long. 154. 54. 00 West

Wednesday
Decr 6. Fresh Easly winds & pleasant & favorable H. through the day. Ship standing to the South & East. & in the night 2 Barks Ship & stood to the North & nearer for purposes unknown to me. Engaged in repairing. B. Boat - & various other moderate works. A number of porpoises seen only. The day ends, Lat. 2. 00 North - Long. 155. 50 West.

Thursday

with an occasional shower of rain. smooth sea &
fine warm weather, throughout the day. Ship a
working to the S. & East, & that too very gently.
Transactions in various works of the Sails, Line,
together with the duties of the day. A number of
porpoises came around the ship about 11. P.M.
The day ends... Lat 12. 19 South Long 156. 59 west

Sunday
Dear 17. Wind from N. by E. to N. West. & the breeze
mostly moderate. Sea smooth. & weather pleasant
Although heavy dense clouds in the morning, causing
sharp flashes of lightning & many hurrying rain
squalls in & about the horizon. & C. I. suppose in
coming high & bad weather. & Ship under full sail
a Steering S. by E. the Course. Sighted a small
number of porpoises. The day ends Lat. 13. 32 South
Long 157. 06 west.

Monday
Dear 18. Gentle breezes mostly from the N. West &
the weather very pleasant & warm & C. throughout
Ship Steering S. by E. the Course with all sail set
Employed in repairing sails & bending them for...
another sea. & then another & C. after whales
but saw none. This day ends Lat. 14. 56 South
Long 157. 14 west.

Tuesday
Dear 19. The first & Mid. parts of these 24 hours
fine breezes from the N. West. Ship Standing
to the Southward with all standing sail spread &
Latter part winds hauled out S. W. & soon
became Calm. except the end of the day
& otherwise mild fine warm weather smooth
sea & C. Filled & sent Mr. Spencer, & the
Embark. & Rigging in, at part 11. & C. Saw 00
to ends. Lat. 15. 57 South Long 157. 29 west

Wednesday
Dear 20. Calm, warm, pleasant weather. Sea smooth &
tranquil throughout. Ship making no way & C.
Engage in works of applying some new shrouds to the
M. P. Mast. & C. Saw nothing. & ends the day
Lat. 16. 09 South Long 157. 40 N. West.

(73) To, the Isle of Chatango

Thursday
Decr 21. First & Mid: part of this day has been Chok calm
Latter part a gentle breeze from the N.W. Ship
standing or working to the South, & that is very
moderate. Employed upon the M. Foremast rigging
& Latterly.. Repairing on mainmast sail. Hc., Hc. Hc.,
nothing has been in view So Ends a day remarkable
pleasant, fine & warm. Lat^h 16. 49 South

Friday
Decr 22. Winds from N.W. to S.West. - & even South &
the breezes gentle. & weather fine & warm, & sea do.
Ship under all sail, a list to the South, after while
I suppose.. Employed at mending sails. Came in view
at 10 1/2 P.M. 2 Shapins flyfish. Discovered them first
on wing. So Ends. Lat^h 17. 39 South - Long 157. 55. 00 West

Saturday
Decr 23. This day winds very light & from the S. S.W. & the
weather fine fair & warm. Throughout, Ship heading
about West 2 points, on an average. Distance no great
owing to light winds. Transactions consisted in the duties
of the day. Together with an small quantity of callings
made. Discovered 4, Proflibred, at 5 P.M. or sunrise
& they appeared to be in great glee, or at any rate very
glamorous. So Ends. Lat^h 17. 30 South - Long 158. 00 West

Sunday
Decr 24. Commences, with the gentle breezes at S.S.W. weather fine
Ship heading to the westward. Mid: part Chok calm, &
quite a heavy swell on, from the Southern board...
& the weather the same. Later. A light breeze at west,
but lasted only about 3 hours. & then calm. & fine, fair &
warm unto the End. Ship with Topsails on the Cape
lighted nothing worthy of registering. Either birds or fish.
Thus the day Ends. Lat^h 17. 30 South - Long 158. 00 West.

Monday
Decr 25. This day may be represented under the following heads
viz, Light. Breezes, & Ship, too calm. Calm, too, a
heavy, or Chok Calm, Hc. Weather fine, fair, warm &
favorable in, the Extreme, for our Transactions which is
a sailing down the M. Rigiorg. But there is other
in view. & a passage to make. & I suppose
whales to take, if possible. Therefore I would not be
understood that this kind of weather is in the
best favorable for a short passage or fish catching.
But here, for I'd nearly forgot that it is the
day of Christmas. But I have no remarks to make
further than the day fine for them that wishes to do
reverence or respect the day Hc. & So it is I shall
begin to think I fear that Christmas Days & all other day
will pass unnoticed, if we stay in this Ocean many years
longer. The day Ends So & So

Lat^h 18. 10 South
Long 158. 40 West

1837

Tuesday. All this day has been attended with Light airs
Decr. 26. & Calms. but mostly the latter & a heavy
swell of sea. &c. Weather fine & warm
although, cloudy betimes. Ship a puning or staling
along slowly to the Southward & westward.
Engaged chiefly at fitting the Helm or Piler &
Wheel. &c. Nothing seen in sight to attract the
Eye or attention. Thus Ends Lat. 15. 42 South
Longitude 153. 40 West.

Wednesday
Decr. 27. The day begins with a light breeze from the N. W.
& weather pleasant. Ship heading S. W. by the
wind. At 5. P. M. wind shifts with squalls
& rain &c. Ship under short sail. & move
about & heading N. E. For the purpose of speaking
an Island, that is near hand to us & to the
Latter fresh winds at N. & squally occasionally
more Ship & steered S. W. by S. under full sail &
At 5. A. M. or sunrise saw Hervey's Island
bearing S. W. dist. 15 Miles. The watch engaged
at pulling Larboard & Rigging Together with
various other works of Ships duty. So the day
Ends with the above Isle bearing S. E. by
compass. Dist. 10. Miles. Lat. 19. 06 S. & 154. 46. W.

Thursday
Decr. 28. P. M. winds fresh at N. to N. W. & squally with
much rain. Ship under 2 Full to Close sail a
steering S. by W. At 6. P. M. moderate breezes at about N
Ship all necessary sail steering as above & with the
weather fair & smooth water. &c. Commenced pulling
the 2. Rigging. So Ends. Lat. 20. 24 South.
Longitude 159. 06 West.

Friday
Decr. 29. The day begins with winds moderate at N. W. with
an shower of rain or so. Ship under all sail steering
S. by West. At 5. P. M. saw the Island of
Cratonga bearing S. S. W. dist 45 miles. Mid. part
winds light & shifted to the S. E. Standing for the
above Isle. Latter Wind fresh from the same & smooth
fair &c. Ship standing in for Island At 6. A. M.
Lauree 2 boats & moved on shore for to get some truck
of which we loaded both boats with potatoes pumpkins
& bananas &c. &c. & got on one board with one boat
load. So Ends Ship lying by

1838,

Board. Southward

Thursday Decr, 30. All these 24 hours brisk Winds at S.E. & Cloudy rainy weather. Ship of 8 on the Island. & we took off 2 more boats & 2 more mostly natives. & discharged a man that was unwell (A native of snowshoe) & bore away to the westward & left the Island. Saw a Ship to windward east 4 to 6 miles. & she proved to be the Beaver of Hudson with 200 barrels 14 Months out, as we were informed by the Capt. & his boats crew which we saw on shore to the above Island. So Ends Steering S. by W. by the wind under Short Sail. Lat. 21.47 S Long 160.47 W.

Friday Jan, 31. The first & Mid. part of this Day brisk winds from the S.E. & Cloudy rainy & raged threatening weather. Ship under double reefed Topsails & heading S. by the wind. Latter part winds the same & raged, sea but weather clear Ship standing as above. Saw Nothing. Thus Ends the Lat. 22.57 S - Long 160.58 west last day of the year 1837.

Saturday Jan 1st. The first Day of the Year, Month, & Week, 1838. Commences in these seas with Brisk winds from the S.E. & raged sea. & the weather fair & clear. Lat. 23.00 N. D. & Latter parts winds from the same & quite Cloudy & squally with some rain. Lat. 23.00 N. Ship under all. reasonable sail. Steering South by the wind. Transactions not over Extensive. Sighted nothing. Thus the first day of this year Ends Lat. 24.39 South Long 161.14 West

Sunday Jan 2. Winds S.E. to E. breeze brisk. sea raged, weather fair throughout. Ship under all necessary sail & heading S. S. W. to S. E. by the wind. Employed variously. & sent in 24y John Brown, Spil. & rigging. & stowed them away. Lat. 26.34 S. Nothing has been in sight. the Day Ends, so Lat. 26.34 S Long 162.00 W.

Monday Jan 3. Winds S.E. to E. by N fresh breezes & pleasant weather sea quite smooth. Throughout Ship under full sail & heading S. by E. to S. E. by S. by the wind. Transactions consisted in repairing 24y the river & heading it. Thus the Day Ends. Lat. 28.30 S Long 162.30 W.

Tuesday Jan 4. Begins with fresh Easterly wind & quite raged & weather threatening. Ship standing to the South by the wind. Employed variously & overhauling the & supplying some stop water to the allast boat. Mid. part winds the same but moderate & weather so

" " Ship under a full suit of sails & thence to spread (with a few exceptions) to the breezes, & she a bending her way to the S. W. East by the wind... her speed however were not ^{over} extensive. Transactions consisted in repairing M. P. Galt Sail, & various works on the F. B. G. Backstays &c. &c. nothing remarkable seen, The Day Ends. Lat. 37° 56' S Long 123° 30' W

Tuesday Feb. 4. Begins, calm & light-buffing air & very slightly until 7 P.M. & then breeze sprang up at N. E. or 2 points Easterly. At 12 P.M. winds veered out N. N. W. fresh steady breezes, & pleasant & smooth weather - until the End. Ship with all drawing sail spread to the breezes & steering sails to foot, & standing S. E. the Course. Employed in ships, bent M. P. G. Sail, & making preparations for high weather. No Cape Horn, nothing strange has been in view, So Ends a Day, Lat. 39° 26' S Long 120° 10' W

Wednesday Feb. 5. The Day commences with fresh increasing winds at about N. E. Cloudy threatening weather. Ship under full sail steering S. E. to E. the Course. No. part winds strong at N. & very Raining & rugged. Shortened sail to double reefed S. Sails. Steered as above. Latter part, winds moderated away & veered out S. S. W. & the breezes gentle. & the rain gave over & weather became quite fine. Made more sail & the gaged away on the above Course. Transactions very trifling. Thus Ends Lat 40° 57' S Long 116° 50' W

Thursday Feb. 6. Winds S. W. fresh to brisk breezes, & weather fair & cool with an occasional squall of rain or the like, Throughout the Day. Ship under a press of sail & steering S. E. to E. Extensive acts or Transactions continuing. Whig we hoisted, right, split & tore up, and deck sheathing, & washed & scraped off the strong Tokars to our, Adieu to big fishing. Great numbers of porpoises came in view, & several fish of purples kind came near the Ship. Thus Ends, Lat. 42° 45' S Long 114° 39' W

Friday Feb. 7. Winds S. W. by W. to W. brisk breezes & the weather fine. Excepting a small part of the day when there was a little small rain or mist a flying, resembling the nature of the soot kind in a measure. Steering with all speed S. E. to E. & that to with an Active or lively Pump, &c. The Basket jammed, so, Come M... 204

1835. Travelling to the.

" " the Transactions on the day is rather beyond
 " the level of common proceedings, & the " are
 stored in glass in sundries & locked, & secured
 all the other moveable things & trank about Deck
 indicating intentionality to bear our way around
 the Horn. Saw many of the South Sea winged
 birds, & some perched, & fastened to one, but, O
 joyful, the horn drawn, The day Ends, Lat 44° 20' S

Saturday
 Feb 10. First part fresh breezes at 11. S. 11. " weather
 fair. " Mid part winds S. 11. & cloudy & raining
 & cool. " Latter winds S. S. 11. & light breeze &
 fair weather Ship a bending her way to the
 S. & by E. with all possible speed. All works
 were strange & curious, the duties of the day &c
 But the Deck, the pitch & the scrape...
 Longs rubbers, on wing, the day Ends, Lat 45° 49' S

Sunday
 Feb 11. This day we have had the breezes brisk from the S. S. W.
 to S. S. E. & the weather cool unobscured kind of weather
 Long for instance from the S. S. E. gashed, at least..
 Or in other words, it is certainly effective to our
 Drunken Reaches, to say nothing as respects the Sails
 & Dicks or Dag. &c. &c. Sea something up & downing
 so much so that a little moisture or an occasional spray
 or for instance the top of wave, that a Petrel could
 with ease cut sundry capers not unlike the common
 steps of the Pigeonwing. Would steal its way over
 our weather-Boathead to the no small annoyance at
 least to the Sails. So they consequently retreated to
 the abominable parts of the Ships Decks, for to avoid
 the pending evil. &c. &c. But their presents seemed
 to awake sensative feelings of an unobscured nature
 to those beneath. Wrapped in the arms of Morphews
 But alas to witness in the dead of night, when
 the bell told us, their time of rising (don't shudder)
 They came forth with language both Obstreperous &
 Maligant - on their tongues, & blazed away not unlike
 the throes of an Volcanoe upon (I believe) the innocent
 & thoughtless Authors of their - or his troubles of
 4 whole sleepless hours.... } 5 = * Certainly a ground
 tier-Butt, takes no rest, & I've heard an unmanly
 Maid of 59, is always clear of trouble & fights &c
 Ship under all necessary sail & Plying for
 Capehorn by the wind. Seabirds appears more
 numerous, very Active on wing. &c. &c. &c. &c. &c.
 & Thus the day Ends In Lat 46° 52' South
 Long 109° 37' West.

1836.

South & East

255

Monday Winds S. gentle breeze & the weather pleasant but a
 Feb. 12. rather cool. Ship with all sail set - heading to the
 E. S. E. by the wind. Attentively employed in
 removing that useful dark pitch from our decks &
 so scappon the day ended. fine Lat 47° 38' S

Tuesday Feb. 13. The day begins with light airs & from the S. W.
 & weather. Extremely pleasant & clear. & C...
 Mild fresh breezes from S. W. to S. & Cloudy &
 something rainy. Lat first - fresh breezes from the
 same & cloudy weather. Ship heading her
 way to the S. & E. with all possible speed. &
 speed too, rather of a moderate kind. & C. Transaction
 has consisted in Ship's duty. & two hours near the
 fore part of the Lutter. End of the day some fish
 of the purple kind came near the ship consequently
 we put over our hooks & took one on deck. & so
 on & the day ended. So, Lat 48° 45' S

Wednesday Feb. 14. All these 24 hours.  Lat 50° 44' S Long 105° 20' W
 the weather has pleasant although cloudy on the
 part. & C. W. winds at S. W. to S. W. & the
 breezes fresh to brisk. Steering S. & the course
 under a press of sail. Transactions were light
 in Ship's duty. & shooting in a measure & C. & C.
 to ends. This day with the winds increasing. Lat 50° 44' S Long 102° 10' W

Thursday Feb. 15. Weather this day Cloudy. Cool & quieting the most
 part. & winds. Brisk to light breezes from the
 S. W. to S. Steering S. & C. the course
 to E. by S. by the wind, under rather easy
 sail. Saw from off deck a fin back whale of
 a tremendous size. & a number of Blackfish
 Employed in jobs of a light nature & C.
 Thus ends. Lat 52° 00' S Long 100° 10' W

Friday Feb. 16. The weather this day has been partly pleasant
 but cool. Cloudy, with an good share of wetting
 kind, or small rain & C. & the winds from the
 S. S. W. to S. W. Light to brisk breezes, through
 the day. Steering S. & C. the course
 under full sail. & C. Ship's duty occasional
 Many Blackfish came in sight. & for purposes.
 Long 98° 57' to near the bows. Struck 2 of the, later, but
 either skill or craft were faulty. As they went off
 a jumping, leaving the water much colored, of an
 redish, & yellowish cast. A certain sign of no.
 Ambergris. So ends. Lat 51° 30' South

1838.

Off The Horn

Saturday Jacket, yes jacket & half weather &
 July 19. Cloudy, foggy, gusting. & light rain at times
 throughout the day. Winds brisk at 3. M. to
 West. Steering E. S. E. the Course & a ship-
 ping the ground quite level. Transactions consisted in
 sailing the ship on. & many blackfish came near
 the ship. Didnt think it prudent to catch, say 10-
 large ones, from off the Martingale, no, never in
 you must. But the day ended No. Old Lat
 Long 94.00 West

Sunday
 July 20. The day begins with winds S. W. brisk breeze
 & which began threatening & cool rough weather.
 At 5. P. M. shortened sail to double reefed
 S. & Main Topsails & F. sail. Steering
 E. S. E. Mid. part winds hauled out W. N. W.
 & blew strong & raining. Close reefed M. S. Sail
 & Steered as above. Latter part Winds cracked
 out S. W. again, & blew very heavy for about 3 hours.
 put the ship off N. E. before the wind, until it
 shortened sail to close storm sail, & then brought
 her too, & rode it out. But the wind soon abated.
 in a measure. Although still quite heavy wind &
 a high sea, & ship heading S. E. & S. until the
 end, saw or rumored porpoises but to raged altogether
 to fish. So Ends. Lat. (not very correct) 56.24 S
 Long 93.03 W.

Monday
 July 21. The day begins with high winds & sea from the
 S. W. The weather rather more tranquil, but some-
 cold & clear. & Cloudy alternately. Loosed & set.
 the S. & Fore topsails. Bore off & Steered East.
 Mid. part winds hauled from S. W. to W. N. W.
 & moderated away to a fresh breeze, made all dra-
 wing sail, & the weather fair. Steered as above.
 Later part winds hauled again to the S. W.
 & raining & cloudy, thick & cool weather & brisk
 breezes. Shortened sail to double reefed S. & main
 Topsails. At the end of the day Close reefed the
 maintopsail & steered E. by N. the Course & E.
 Transactions Consisted in sailing the ship. Sailing
 & taking in sail, according to the winds & weather.
 So Ends the day. No. Old Lat. by Chr. 56.30 W

Tuesday
 July 22. Begins with strong S. W. winds & Cloudy with
 rain, raged H. Mid. part winds W. & weather fair &
 set all drawing sail. Steered E. by N. Latter part
 winds out West Northby. & Cloudy Raining &
 & breezes quite moderate. Steering E. by N. the
 Course " too East & E. Thus Ends the day
 Lat 57.30. South. Long 94.57 West.

1838. A. Sweating around the Corner. For the Cold

Wednesday
Feb. 21. Winds all the way from west to North & the
breezes mostly fresh. Attended with cloudy, foggy, thick
& rainy cool bad weather. Throughout the day...
Ship under all necessary sail steering E. by N.
the Course. Transactions Consisted in working Ship
Saw a finback whale & other inhabitants of the Sea
such as, ^{Wagings}, gony. Monkeys, Hoaglets, Bank Duck
& Porpoises fastened to 3 of the Lanes, But I
Shaking, to say, "Save, not one," had eyes very bad
Craft. But the day Ends Lth. 5h. 19 S

Thursday
Feb. 22. The day Commences with, winds Shift in our
tack or nose. Day to the E. N. E. breezes
light & baffling. & weather Cloudy & rainy &c.
As our ship heading about S. something East,
we Tacked about to the N. E. & at about 3 P.M.
the winds veered in, our power, so that we pointed
the Ship N. E. by E. the Course, with all sails set
Mid. & Latter parts, winds wind from the S. E.
to W. by S. fresh breezes. & fine & mostly clear
weather. Studs out both sides & both porpoises
aboard, & the Ship a heading the way towards Home.
Transactions light & working Ship. Porpoises came
round the bows & our Porpoise, strikes punched
away at them, But the Foregarage nor neither
did the time from. This awful to say, have the least
effect. So the day Ended. Lth. 5h. 27 South

Friday
Feb. 23. Winds N. N. W. Strong breezes to a Gale of
wind, & much rainy thick heavy weather the
whole of the day. Shortened gradually to Close
storm sail. & have the Ship too. heading N. E. by
E. the Course. Saw more porpoises, & hooked
to one. But all to no service as usual, as the Gore
broke. So during the fish was off. &c. &c. &c.
So Ends the day so rugged. Lth. 5h. 14 S

Saturday
Feb. 24. The day begins with high, much rainy thick, cool
& howling weather. & winds about N. W. But
the weather soon became fair in a measure, & the
wind, died away gradually. Made sail by degrees, or
according the breezes. &c. & steered N. E. by E. the
Course. At 4 P.M. Saw a Brig & a Ship standing
to the S. E. W. by the wind, the former had the appear-
ance of Merchantman. the latter had the full
appearance & tackle & by her flag, to be a
French Southsea Sparter. &c. &c. Mid. part
light breezes from N. W. to S. W. Ship under full sail
steering as above. Over

1838,

Off the Horn Bound

" " Later part light airs from the Westward & remarkable pleasant & clear weather for these seas Ship making no headway worthy of mention. Employed in jolting - Thus Ends Lat 54° 11' S Long 77° 50' W.

Sunday.

July 25. Calm yes chok Calm All these 24 hours something strange. Attended with extremely clear & smooth, pleasant weather. Our sails closed up & closed down, hanging truly in a balanced state. Thus Ends a day of smooth weather off the Horn In the Lat of 54° 51' South Long 77° 56' W.

Monday

July 26. The first 8 hours of these 24 has been what old horses would with propriety term "Calm" with the exceptions of 3 1/2 minutes there were a slight ripple on the water not unlike a paw of a Cat. A term very familiar to old sailors. Consequently we set all sail low & aloft in a thrice & carried what one might say a lot or a working Rag. & the Ship a heading somewhere between N. by E. & S. by W. & making rapid way. Say 2 1/2 fathoms to a foot & some inches distance. The intermediate 8 hours which constitutes the Night. A light breeze sprang up from the N. by West. & all usual sail spread to the breeze, & heading about East. her way however not swift. The latter 8 hours which completes my full the 24 has been attended with an gentle breeze At N. & that too 4 fathoms in our teeth. Steering by the wind to the E. by N. under no flying rag, making but moderate way over these cold seas. Thus a day Ends of clear & pleasant weather & transactions moving without. Lat 55° 07' South Long 69° 50' 00" West.

Tuesday

July 27. Winds N. to N by W. Gentle breeze & clear & pleasant with the exceptions of its being rather cool weather throughout. Sea smooth notwithstanding a long easy swell on a setting from the Eastward, which causes an easy & quiet gait or motion with the Ship. Similar to that play with young boys known by appellation of Tiltle Tattle. At 10. Standing to the East, Northward. Sharp by the wind with all sail set. Saw 10 Finback, whale & several Grampuses 2, or 3 shoals of porpoises of which played around the bows some considerable. But alas they all (after several punches from our spikes) Escaped with whole jackets or no additional holes or gashes in their skins. Thus Ends Lat 55° 11' S Long 66° 00' 00" W.

1834. H. C. W. C.

Very good. The day begins with clear & pleasant. But as usual
Feb. 2. D. Cool kind of weather. With winds at N. gentle
breeze. Ship under full sail heading East. Mid & latter
parts wind the same & cloudy & rainy thick weather
cr. Shortened sail in a measure as the wind are as
head to heading as above by the wind. Transactions
Sailing ship only. Saw many boats of these seas
such as Waggoners Casks & snatches. Jongs & Sperpases
& the latter come within the reach of our furnishing
instruments & as usual received an additional
office in his skin or Huber & then they were off
& gone again. So Ends Lat 5° 10' N. South
Long 63° 30' W. 11.

Thursday March 2. Winds This day has been dead ahead, nearly. Say about
1834. N. to N. W. by N. & the breezes mostly moderate. & the
weather Cloudy foggy misting & Cool. Throughout the
day. Sail is rather short on the ship & she is standing
to the N. & East. but of no great consequence & to the
Transactions as usual has been light & to the fishhook seen
Waggoners in vast numbers & noisy with their short sharp
screaming or hooting in the dead hours of the night
not unlike the sound of a Cod-takers horn on Bobell
&c. Also a few gulls, murrelets, hawks, Petrel, unusually
by numerous, & a single Bluejay, a Sea Lion, & a Lark
Duck, seen, together several shoals of the porpoises came
around the bows & we hooked to one & hooked him
on Deck. Thus Ends Lat 5° 35' N. Long 64° 40' W.

Friday March 2. Winds N to N. W. & the breeze moderate & unfavorable
for our passage. Steering by the wind to the N. & E. with
all necessary sail set. & the weather till 10 P. M. was fair
although Cool & Cloudy. Remainder of the day were tended
with thick heavy fog with much rain & H. & H. A. M.
Duck Ship & heading West. Some few porpoises come in
sight & they appeared very shy. As the gave the ship a
good look. The feathered tribe or habitation of the two
elements, not so numerous as days past. Thus Ends
No Obs. Lat. Long not. Observed

Saturday March 3. Commenced with...
Winds light & baffling from N. to N. E. & Cloudy raining &
Cold weather. Ship steering from N. to N. E. by the
wind, & from 7 P. M. to 4 P. M. the wind gradually
veered to the Southward & the breeze increasing. Still
Cloudy & much rain. That it was truly evident that a
tight jacket undoubtedly was the most preferable in
these water falling states. Steered N. the Course with
flowing sheet & square yards. &c. & from 6 to 7 P. M.
the wind grew strong & the clouds more broke, or had
the appearance of clearing up, &c. Over

153p. Flying to the Northwest.

" " & the rain gave over, but the weather wore a threatening appearance, indicating a breeze known by the "Herry" head "akers" a Southsea Greenback & we in fact to Close reef M^o & double reefed Fore & Main Sail & Foresail. & the Lane to the M^o Foresail gave away, & the yard came down Crutchons on the Cap whilst engaged on fore Foresail, & M^o Sail H^o. & we soon fitted or set a affair by applying a few fathoms of whale line to it. & rope always calculated to be a first rate Lapping. H^o. & the remainder of the day Strong Gale & steady. Ship Boil too H^o H^o & making rapid strides to the North. & a lonely finch passed the ship. & porpoises came around the ship. But urged to fish. Also, Gony's petrels & other birds of the sea, on the wing a clearing the breeze without apparent effort.... The Day Ends, Lat. 54° 5' N. Long. 55° 00' W.

Sunday March 4. The first part of this day Strong gale at South & fine but cool weather. Steering N. to N. by E. under short Sail. Mid. & later parts winds moderated away to a gentle breeze & we set a foresail or two to the Eastward & weather fine & sea smooth for these seas, or this Ocean. Set all drawing sail, & stored as above. Gony's, numerous, jays a pair, hagglets skraghead birds & petrel around. & unusually active. Observed the water to be more or less green. This day & So Ends, Lat. 52° 2' N. Long 52° 3' W.

Monday March 5. Commences with light fair winds, Say S. S. E. & weather quite pleasant. But cool & cloudy. Ship standing N. the Course under all drawing sail. Mid. part winds nearly calm & hauled out N. by W. Dead on. End. Tacked ship & steved to the E. Northly & the weather the same. Latter part gentle breezes all N. N. W. & fine & cool weather, sea remarkable smooth. Ship heading about N. E. by the wind. several gony's around. Cant one. & the Sails made a quilled Macaroni of him something similar to a purgation. H^o. & the day of the day some porpoises come around. But factories all went off with whole skins. Transactions consisted in getting out the Waist boat on the Crains & fitting her tackle or fishing gear H^o. & we even boiled out the blubber of the last fish taken. H^o. H^o. & So Ends the day Lat. 52° 00' South Long. 52° 40' West

1838.

Tuesday
March 6.

Weather Clear & pleasant. But rather cool
withal. Throughout the day. Winds North. to
N by E. Gentle breeze to a fresh gale. Ship under
full sail Standing N.E. by E. by the wind. At 9 P.M.
Packed Ship to the westward. At 9 A.M. for
topgallant sails & double reefed the Topsails &c. &c..
Transactions consisted chiefly in making a mixed
topgallantmast & overhauling the rigging to go on it.
The Haglet & Petrel this day active & in vast numbers.
Monkeys & gumps a few. Fathoms, fair & several gulls
& Wiggins observed. Also from three to four shoals
of the porpoise came around. But met with no
success whatever in hooking to them, although
we made many trials & even punches. H.C. to Eads
Lat. 54. 30. South - Long 52. 40. 00 W.

Wednesday
March 7.

Winds at N. & mostly a strong gale, unfavorable in
the extreme. Say for instance Ship in our teeth H.C.
throughout the day. & the weather too. Cloudy foggy &
rain at times. & as usual quite cool. Sea dashing &
short. H.C. At 3 P.M. in P. & M. Topsails &
jib Main sail H.C. at 6. Close reefed M. P. Sail.
& got the Ship under Close sail. Taking care to
tack, one or twice daily, to keep the Ship somewhere
in range of her course. Laterly the wine indicated a
Messil. Set the P. & M. Topsails jib. M. Sail
at 6. & pushed away to the E. N.E. by the wind
making deep vents & heavy sweat at the nose
but the headway trifling. The wing & feathered tribe
numerous & active. This day, & catching the porpoises
with apparent ease H.C. Porpoises a number came
around the Ship, but we met with no fruit for
our labors & trials in punching of them, although one
or two made off something wounded leaving colored
water in their wake. But I am inclined to believe
that yellow were the most prominent or leading shades
observable. A pleasing difference to the fish, certainly
between a mason & an yachtwish cast. H.C....
At the day Ends. Lat. 54. 14 S. - Long 53. 00 W.

Thursday
March 8.

This day Winds N. by N. N.W. fresh breeze in
general. Weather has been cloudy with an dense fog
rain at times. Cool or chilly H.C. throughout. Sea rough.
Ship under Short sail Standing to the westward.
At 3 P.M. Packed Ship to the westward. At 10
Packed again to the E. 3 point North & set more sail.
H.C. Transactions, in re-installing one of the forechairs
which gave away a day or two previous. Saw nothing strange
to Eads. Lat 54. 31 S Long 52. 47 W.

1839,

Friday

March 9.

The weather were on this day attended with an heavy
Dense fog & occasionally light rain at times, until the
9 hour in the Evening. Where the fog lifted or cleared
away, leaving the sky entirely free or Cloudless as far as
the eye could reach. Uncovering the moon, (for the first &
only time, for many days past,) which shone in full splendor
displaying her silvery rays upon those rippled waters &
the weather became Delightfully Fine & pleasant & C
into the Eve. A scene certainly worthy of remark —
Winds fresh & favorable from the westward. But it
gradually moderated away & became a shill calm, about the
3 hour in the morning, & continued so till the End of the
Day. Sea for a while appeared something troubled with
rather a short Rowling swell from the northern Sea.
but were not lasting, or it smoothed away with the wind
in a great measure & C. Ship Steering N the Course
with Speed according to the winds & C. Transactions
consisted in getting our new M.L. Topgallantmast aloft
& fitting the rigging to the yard for the same, & C
The feathered & winged tribe unusually numerous &
active & a pair of the gony kind were taken this day
also a number of porpoises came around the Ship
But Shaking to Say, that our porpoise fishing were all
to affect Although we hooked two or three, & C.
faulty craft probably & C. Thus Ends Let. 50. 10 9
Long 52. 0 16.

Saturday

March 10.

The day begins with fine weather sky generally clear & C.
& light breezes from the N. E. East which soon freshened
& veered to the N. & West Ship standing to the S. & W
under full sail. At 5 P.M. Tacked ship to the S. & E.
& saw, some 10 or 12 miles to windward of us, a Ship
a Standing to the N. & East by the wind & C. & C
Mid. part mizen hauled out about west Breeze &
favorable breeze for us ship changing her Course. N
But her gale or headway was far from being swift.
her motion though, were large & active, owing to a high
bad beat sea which often met the old Creation, Slap
in & about her front, to her no small annoyance
of a wet Nose, & C. & C. Later part - Winds veered still
more to our favor, Say N. & S. W. fresh steady breezes
& the weather pleasant & clear. Squared in our yards
& set the 3d sails & C. Steered as above making
lively way for Home. Transactions Consisted in some
small motions of Ship's duty. From 2. to 3 p.m. appeared
in view. Also a number of porpoises came around the Ship
But Fortune rendered no effect in the cases of bad
management & worse Craft, in porpoise fishing, so there
all save threescore, four, winged beasts in great numbers
this day. & the day ends so Let. 4. 10 10. South.

Long

No 30.

1834

Sunday
March 11.

The day commences with unusually fine weather & pleasant
& winds N. & S. W. fresh breeze. Mid part winds veered
out, N. W. brisk breeze & weather still fine. & C. Later
part of the day. Winds veered out South fresh to light
breezes, & weather fair but Cloudy at times & C. & C.
Sea smooth in general. Ship plying to the North the
Course, with all possible speed. & C. & about the 3. to
to the 5 hour of the day. Our fish as usual. The porpoise
a number came around the ship. & as fortune being
from or awake, to our assistance. & with an due share of
good management, we succeeded in hooking & saving 2.
The act certainly, that is worthy & necessary to be impressed
in the minds, of us, the victors, & lives of the rising
generations & C. & the day about ends, in the Lat.
Of 46. 03. L. Long 50. 00 W.

Monday
March 12.

Winds from N. to S. fresh to light breezes. & the day
was attended with fair weather throughout.
Ship transpiring to the North one point West the Course
with all drawing sail spread. With one exception, I. & C.
was unbound the M. L. D. sail to repair & to give
it a small share more twist & C. & C. Saw immense
numbers of the Straggled birds this day, in rising
Mouks - Albatross - Blues - Gulls & Petrels as usual
around. Also, a cock & hen of the same winging
their flight to a great elevation. & C. Thus ends
the day. Lat. 44. 40. South - Long 49. 27 W.

Tuesday
March 13.

Winds S. W. to E. fresh breeze, the most of the day
& the weather fine & something more mild to what it
has been for days or some weeks past. Say for inst-
ance, the rather jacket can be disposed with for the
most part of the time. & C. without any material
injury or bad consequences arising therefrom. & C. & C.
The day transactions has consisted in finishing up
Mizen topsail & hoisting it & likewise we repaired
our Mizen topgallant sail & hoist it. also our M. or
Topgallant steering sail were repaired & fitted for
service & C. & C. Porpoises seen. & came around the
ships bows. They were unusually shy or at least their
fins were short. Albatrosses in vast numbers likewise
are the straggled birds. Mouks & Gulls a few
seen here a pair the Petrel in small numbers
around. So ends, Steerway N. by W. the
Course, with all possible speed. The sea water
were observed to be of a greenish. Colour & C.

Lat. 43. 00 South - Long 49. 17. 00 W

1535

Wednesday March 14. Weather mild & pleasant throughout, the Day attended with gentle breezes, from East to about South. & an short jumping swell up of the Sea from the Eastward consequently a scene of rowling & Flaring were witnessed & with the Ship. About the hour 4 P.M. to 12 Midnight great numbers of the porpoise fishes, alternately played around the bows of the Ship. & as porpoise fishing has become something superficial in relation to guilt (to say nothing concerning the Oily part) As our Salt beef runs extremely low, likewise a visible cobb with the pork hogs &c. A Commem. Consequence to these stayers take, for instance all night. Whereas upon such or similar terms, the made Cash business of it & 5 of the above active animals were taken. &c. &c. &c. The works, otherwise than hoes fishing, were light & temporary. & the Effluvia as usual, in great numbers. Also the Black & ringnecked Gull, & a single pair, picked in small numbers around. & about the fog of the Day 2 flocks of a tremendous size, came within a few yards of us, & bore our company for awhile & frequently blowing their noses. Marvellously. Thus the Day Ends Steering North the Course with all possible Speed. &c. L.H. 46. 46 S. 4. 4. 5. 5. 10

Thursday March 15. The Day begins with a Shift of the wind from S. 4 point East to S. 4 points West. & increased from that point to a Strong gale. Shortened sail in a measure. Mid part wind the same. & strong by squalls, In sail to double reefed Topsails &c. Later part winds more moderate made sail by Degrees. & Steered N. to N. N. E. & N. E. by N. the Courses, Transactions not Extensive. Seabirds as usual are numerous & active. Also a number of porpoise came around, having a number on hand, the business of fishing, consequently were not urgent so Caught none. This Ends a Day of Cloudy & something rainy weather. Although few winds & a following sea No. Obs. L.H. Long 4. 5. 5. 5. 10 West

Friday March 16. Winds S. W. & breezes fresh to gentle breezes & the Day mild & pleasant with the exceptions of a shower of rain or so. Ship Steering N. E. by N. to N. E. by East, the Comm under full sail. Transactions Consisted in some slight notions of Ship's Duty. Porpoises a number came around the bows as usual, & for ten our Stock good we took a single one. & dressed him &c. The winged & feathered inhabitants of the sea are too very small numbers as the ship advances to the Northward out of their limits &c. &c. So the Day Ends fine & pleasant

Dying Against

Tuesday March 20. The first part of this day the winds about N.E. gentle breezes, & the weather pleasant & fair. Ship standing to the N. & W. by the wind under all sail. Mid. fore the winds increased from the same point to a brisk breeze, weather cloudy, &c. Standing as above, & in sail to double reefed Topsails. Later part, winds still increased from the same, to a fresh gale, & cloudy rugged weather & several smart showers of rain. At 4 P.M. fore & main Topsails & close reefed the main wore ship to the S. & E. But near the fog land of the later part, the winds seemingly moderated in a measure & we set the fore & main Sails. & main sail & still sailed away to the S. & East. Transactions consisted in works relating to our ship's rigging & manufacturing a rope or two of spinnaker. Nothing appeared in view that would have the least tendency to meet the demand of most trifling article. Even in the domestic line. Thus Ends. Lat. 34° 07' N Long 44° 00' W

Wednesday March 21.

Winds play in our teeth. Say N.E. by N. Strong breezes, & rugged, heavy, cloudy, squally, rainy, douring, bad, unfavorable weather, yes & contrary winds too throughout the day. Ship under double reefed Topsails & flying to the E. S. & by the wind & that too with a tort bowline &c. At 1 P.M. sighted about a league distant a ship, a standing to the N. & W. in a tort bowline &c. &c. a meeting us head & head. In the space of an hour or so, she came up & spoke us, which proved to be the two, Lancaster, of Bedford, bound to the same, & she were bound, & bore our company upon the Eastern Pack. At certain times, on the day, there were a due share of canvas straightened to the creases, for the purposes of this thought, to try the speed & strength, of the vessels in their advanced years. But, alas no great speed or strength were observable. Although an extensive strain of pitching & jumping sweating at the masts &c. were evidently remarked. &c. Transactions wholly upon sailing ship & repairing &c. No fish sighted worthy of mention. Thus Ends. Lat. In Co. Lat 34° 54' N Long 42° 00' W

Thursday March 22.

This day has been attended with all the qualities of the preceding day. That is, winds & weather the same with the exceptions of less rain. &c. I believe & in the rain of the day we came indeed close sail that is took in fore & main Topsails jib, & main sail, & set them again in the course of a hour or so. At 10 A.M. wore ship to the N. & W. sighted nothing worthy of mention. So Ends. Ship in Co. Lat, 35, 34 Long 40. 27. W

Tuesday
March 30.
Still in Co. in
Sloop Lancaster

Calm from the beginning of this day to 6 P.M. & thence
a light breeze sprang up from the Northward & Eastward
which increased to a brisk breeze & veered out N. As the
day advanced, Ship stood on the N. & Western Tack
until 4 P.M. Thence we tacked Ship to the E.
with all reasonable Sail set. Repairs has consisted
in odd jobs on our rigging & Rarreeing our Fore
topgallant sail. & bending it H. H. & got the
Boat out in her crains H. Nothing has appeared
in view to attract the least attention. So ends
a day of pleasant & warm weather. H. H.
Lat. 27. 05. South. Long 33. 36. West.

Saturday
March 31.

Winds all this day blew in our nose or beam
that is, dead on, end or ahead, or right ahead, or from
the point which we would wish to steer. Any not
a good difference from N. & the breezes fresh to
strong alternately. & the weather highly variable &
squally with rain H. at times. Ship under full to
short Sail. Alternately N. standing to the Eastward
close haul to the wind, tacked to the N. Saturday
duties were attended to & a few other odd jobs received.
An marked attention H. H. in the run of the day
stood no great head this day. Weather far from being
favorable to Whales providing whale were numerous.
So ends the day. H. } Lat. 26. 53. South
the Land still in sight. } Long 31. 05. West.

Sunday
April 1st
1834.

This day has been attended with cloudy unpleasant
weather. Winds N. to N.W. by west, & very heavy
squalls. Yes imagination would say, that truly the
spirit of squalls were abroad this day in all their
majesty. At the beginning of the day I got of a
squal came in contact with us, & carried away two
joints of our main overboard, together with sails &
rigging mastingale H. H. belonging thereto
& in the mean time we were a clearing up & down the
top G. sails & topgails courses H. & confining them in
a measure. & in the space of about 2 hours we got our
broken spar aboard & the rigging sails to it cleared
away. & commenced rigging & fitting another to replace
it. When at 5 P.M. we got one joint. (& say
jib Boom) replaced & the rigging set up & Sail
bent H. & stood or steered to the N. & E by the
wind under short sail. But near the end of the
day the weather became more fine & the breezes light from
the N. S. W. Made or set all driving sail & steered N.
the course. & the day ends. Ship L. in company.

1832 : Off Coast of Brazil

Sunday The first part of this day, fine & pleasant weather
April 10. & winds about E. S. E. & some appearance of
what are called S. E. Trade winds, but in these
days & seasons are as it appears much
altered. H. Ship under full drawing sail Steering
of North. Driven in there for the intention
of touching at the port of Pernambuco, & to get
a small stock of provisions. H. H. H. In latter
parts strong squalls of wind & calms, alternately
& shifts from S. E. to N. E. & occasionally thunder
& lightning & copious quantities of rain H. H. H.
lost sight of the Ship Lancaster. In the rain of
day saw 2 frigates & endeavored to speak one
of them, but through fright or fear or devil or
some evil spirit or other, caused her or them
to give their sails a good pull, for to increase her
speed, & we gave up the attempt of speaking her
& hauled our Ship on the wind again H. H. H.
& we observed to be an Englishman by her flag
So Ends Steering of N. W. under easy sail amid
squalls of rain H. Thus Ends the Day No Calm.

Monday
April 11. The day begins with Cloudy & squally, rainy
thunder weather, & then with a variety of winds
say, Strong, & fresh to a good Calm, Alternately...
Ship a. Tacking & heading various ways & courses
for the purpose of going into Pernambuco, to obtain
some provisions or something to that effect. If the
weather were consistent. As the weather at
P. M. were extremely unfavorable for approach, the
weather shore of day same, & we the appearance of
being so for some day. Consequently we hauled the
Ship upon the wind, & made sail & stood off N. N. E.
& gave up our intention of going in to the above
mentioned port. Mid. post winds E. N. E. gentle breeze
Ship under full sail Steering N. by wind, & the
weather rather more mild H. H. H. At part the wind
hauled out E. something southerly & the weather
fine in a measure. Steering N. W. Westerly under
all drawing sail. At 10 A. M. Saw the land
bearing 10, dist 15 miles. The Brazilian Coast,
near Cape St. Roque. Transaction consisted in
works upon the Ship, rigging H. H. H. H.
So Ends. Lat. 6. 50. S. Long 34. 33. West.

April 18. Winds E. to S.E. fine & gentle breeze, & the weather
cloudy & several smart squalls with rain in great quantity
throughout the most of the day. Steering N.N.W.
with all speed. The works this day has been truly
urgent & pressing that is having a great general
scraper, scrub, & wash upon the bulwarks rail & in
fine all the internal parts of the Ships Deck. &
preparing as it is understood for painting. Say
in the end to not to cause any offensive odor or
savor, to the noses of our owners. H. H. H.
So Ends another day. Lat 2. 35 S. Long 36. 12. 0 W.

Thursday
April 19. All these 24 hours pleasant & warm weather &
wind light, blowing breezes mostly of the N.E.
Ship a running slowly along to the N.N.W. West
by the wind, with all sail set. Transactions has
consisted in works upon the Rigging, H. H.
So Ends, nearly calm. On, at last four
proverb, the more haste the less speed.
Lat 1. 32 S. Long 37. 0 West

Friday
April 20. Light variable winds & Calms, & Cloudy & warm
weather, accompanied with copious quantities of
the rain. Ship a running at intervals & the other
flat aback at times. & then fall off & come a
again. Then, come, round at short intervals.
& steady upon the Course N.N.E. for 4 hours.
thereby of her speed 1.1 Mile an hour. H. H. H.
Washed & scraped the Ships side this day. H. H.
Thus Ends. Lat 5. 1 Miles S. Long 38. 12. West

Saturday
April 21. Winds Calm. Excepting one unwavering cat's paw
or 2 throughout the day. Weather warm & wholesome
Ship lying inactive H. H. Through the day
Transactions Consisted in the Duties of the
& jobs upon the Rigging & we. started up
last barrel of meat. This day. So Ends this day
Lat 3. 4 = South. Long 38. 29. West.

1838. Listing to the Northward

Sunday The first part of this day, winds blew calm
 April 22. Ship under no way, sail. Chud down to avoid the
 the wave & bare of sailing & shaping H. H.
 & more or less swell. & from the S. E. was observed
 Mic. part D. Light breeze sprang up from the
 Eastward & something wavering. At a squall or
 two occasionally. Set all drawing sail &
 that ten, strictly turned or trimmed to the breeze
 & Steered N. by East, the Course. & N. by west
 by the wire sharp. Later, part the breezes
 became favorable, say E. by South, & freshening to a
 gentle breeze. Ship a moving very fairly for her to
 the Northward, the Course, with all our sails set
 & due. Sails also, & the weather. Delightfully fine for
 the most part of the day. The prospect likewise bio
 fair & something promising. Considering.
 Thus Ends. Lat. 41. Miles N. N. E. E. 38.59 W

Monday Winds East to N. E. gentle breezes Throughout
 April 23, the day, & weather fine & warm H. H. Sea smooth.
 Ship under all possible sail. Steaming after the
 usual order. Say N. N. W. & N. by W. to N. &
 N. by E. H. H. All Courses — transcriptions.
 were mostly directed upon our rigging, & occasionally
 a stroke of, as it is, erroneously called Caspian.
 The day Ends. Lat. 41. North, Long 39.57 W

Tuesday
 April 24. Light baffling breezes, mostly from the N. & E.
 fine warm & pleasant weather Throughout
 Ship a moving largely through or over these
 waters to the North Westward on the Southern H.
 Employed variously upon our rigging H. H.
 At 4. P. M. Saw a strange sail, bearing about
 S. 3 E. East from us, Dist 12 Miles. At A. M.
 Daylight the above sail, bore East by Compass
 Dist 5 Miles. Set our signal for her to run
 down, of which she readily did. & we lowered a
 boat & went up her, who proved to be the Schooner
 Anne Howard of New London, A. Sealer
 from Providence, lately from Pernambuco, &
 the same we saw on the 3^d of this month. H. H.
 & their Capt. made to furnish call on board of us
 some 5. to 6 hours. & we obtained from them
 a barrel of Salt provision, also a number of
 other eatables. Such as a few pieces of meat called
 jerky, & some Oranges. Tobacco H. H.
 & so ends the day. Lat. 3. 06 North

H

Wednesday
April 23.

The day begins with light breezes from the N.E. & freshening as the day advances. & of course the prospect became cheering in great measure. & Also, the day has been favored with weather that is fine in the extreme. Throughout, all our attention being paid & likewise the general fashionable compliments settled with the ever obliging associate the Sr. Bore. H... Consequently, we have on board our Tacks. & steered N.W. & N. on the line. Thus would we have borne her Company over the rippled sea. But alas, her speed, & that to pressed by their broad fore & aft Cut, H.. to make no mention of ship's heels she were. Which soon... left us far in the rear. The work of the day consists in the salt line, although something limited, & we unstrung our Blubber Cutting fromants H.. this day. So, Ends. So, H.. H.. far out of sight ahead. Lat. 44° 40' North. Long 41° 10' W.

Thursday
April 24.

Winds N.E. to E.N.E. fresh breeze, & likewise the breeze savors what were, were formerly known in these Seas the North East Breeze, H., & H. & the weather pleasant & warm throughout - the day ship & rigging to the N.W. West - the Course & what too nearly upon the top of her speed. Consequently the prospect is certainly fair although not cheering. The engagements in ship have judiciously consisted in repairing an old Fore & Sail. Also in the purchase of a like description to begin, H. & some others, certainly, of speed where haste is required. H. H. H. H. But the day ends Lat. 6° 44' N. Long 43° 00' W.

Friday
April 25.

Trades fresh at N.E. & pleasant & warm weather throughout. Ship mostly upon the top of her speed & rigging N.W. West the Course. The prospect continues... uncommonly fair & favorable. H. Employed in repairing the fore mentioned sails, & various other works upon the Rigging H. & the day ends, So Lat. 5° 32' N. Long 45° 30' West.

Saturday
April 26.

Brisk Trades at N.E. & weather fine in the extreme throughout. Ship, a winding her way to the N.W. the Course, under an active tramp. Transactions consisted in various works upon the Rigging. & also the Duties of the day were attended to as usual. H. So the day ends Lat. 16° 15' North. Long 48° 00' West.

Monday
April 30. Trades, brisk from N. E. to East, weather fine,
fair & pleasant. With the exceptions of a shower of
rain in the course of the day. Shift a trawling off
upon the Course or Point N. W. to N. E. that too
with fair speed, with nearly all sail spread to the
breezes. &c. Various incidents seemed to be on the
rounds this day by the by. &c. Such as, after the order
of Disunion. & Actual separation. The first instance
came to view, were a direct division from head to
foot of our lower St. sail, & likewise our
Foretop gallant Stay, & St. jib, martingale-
Chain & a few other strings & lines, became dis-
united, in equal divisions, & no consent either
mutual or immutual asked, &c. &c. Transactions in
chief, has consisted in repairing, or Splicing our
Mⁿ. Royal Yard, & fitting on five new F. G. Gallant
Stay, & in fine, pulling together the broken & parted
& breeding within them a perfect Union, &c. &c.
Saw at the commencement of the day, A number
of small sized Blackfish, under active heading, or, In
lively Emigration to the S. E. & near the Bayard
of the day, a job of fish, called the porpoise, -
were seen a sporty, as at were, in the rippled
waters, near to the Ship Mⁿ. Upon that we Happed
a whale into one of them & roused him on
cock. Consequently the Artisans of the gale, crossed
& composed them familiar steers, Commonly known
by the appellation, of Macaroonys & Furguegions
of the flesh of the Animal.

1538,

Wednesday

Sunday Winds at the beginning of the day were light
 May 13 blowing from the N. E. East. But increasing as
 the day advanced. Also it hauled out S. E. breeze brisk
 & steady, from that point unto the end of the day
 weather in the afternoon of the day were apparently
 fine & pleasant. But laterly the sky became cloudy
 accompanied with a due share of rain. Or in a
 word, the weather appeared threatening & Raged &
 ship with all mauling sail sped to the breeze
 & steering N. W. by N. the course & our speed has
 been solid for us for most part of the day
 Saw this day great numbers of gulls, & flying
 squab in vast lots. Also the Skiffish &
 the Cere appeared in considerable numbers
 & the Tails caught a couple of the latter
 to end the day. No Observation. Thick Clouds

Monday
 May 14. The day begins & continued raining until 4 P. M.
 & the wind strong at S. E. During the time we shortened
 sail to double reefed topsails & furled the main-
 sail & gills &c. & steered N. W. by N. the
 soon after, the rain gave over. & the N. E. part wind
 fresh, at East. & fair weather. Steering as above
 under short sail. Later part, Wind
 East. Northward & fine weather. All sail set
 steering by the wind to the N. N. W.
 Transactions This day has been extremely various
 such as painting the gangway, &c. house, mahoopa
 & overhauling the shore instruments of death &
 scraping the rust from them. likewise blacking
 them &c. &c. & Manufacturing a quantity of
 line to attach to the Deep Sea Lead.
 Lighter, or in fact, A noble lot of porpoises, came
 around the bow of the ship. & lively trials were
 made for one of their Carcases. But nothing
 to say. That we came short of saving one of them
 Although we left one of them a mere a lifeless
 Corpse upon the water. A prey to the Sharks
 & other wide fish of the Sea &c. &c.
 & Thus the day Ends

Parably fine, Considering
